

## APPENDIX 1 TO ANNEX IV – PRODUCT SPECIFIC RULES

### SECTION I

#### INTRODUCTORY NOTES

1. The first column of the List set out in Section II contains chapters, headings or subheadings, and the second column sets out a description of the products. For each entry in the first two columns, one or two rules are specified in columns 3 and 4. If the HS code in column 1 is preceded by an ‘*ex*’, the rules in column 3 or 4 apply only to the part of that chapter or heading as described in column 2. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, either one may be applied. If no origin rule is given in column 4, the rule set out in column 3 applies.
2. Pursuant to subparagraph (1) (b) of Article 2 of Annex IV, the product-specific rules may be fulfilled by operations in different factories, provided the working or processing takes place within a Party and fulfils the requirements of this Appendix.
3. A product-specific rule of origin set out in this Appendix represents the minimum amount of working or processing required to be carried out on non-originating materials for the resulting product to achieve originating status. A greater amount of working or processing than that required by the rule for that product shall also confer originating status.
4. If a product-specific rule in the List specifies that a product may be manufactured from more than one material, any one or more materials may be used. It does not require that all be used.
5. If a product-specific rule in the List specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials in addition.
6. If a product-specific rule excludes materials classified in certain chapters, headings, or subheadings of the Harmonized System, those materials must be originating for the products to qualify as originating.
7. Where a rule uses the expression “Manufacture from materials of any heading”, materials of any heading, even materials of the same description and heading as the product, may be used, subject to any specific limitations which may also be contained in the rule. This note applies *mutatis mutandis* to the expression “Manufacture from materials of any subheading”.
8. The products mentioned in the List may not all be covered by the Agreement. Other parts of the Agreement such as Annex I, or the bilateral Agreement on Agriculture concluded between Hong Kong, China and the respective EFTA State must be consulted in order to determine whether preferential access may be granted for a given product imported from a Party to another.

9.1 For the purposes of heading *ex* 34.03, the “specific processes” are the following:

- (a) vacuum distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation; and
- (i) isomerisation.

9.2 For the purpose of heading *ex* 34.03, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining sulphur content as a result of mixing products with different sulphur contents, as well as any combination of these operations or like operations, do not confer origin.
