EUROPEAN FREE TRADE ASSOCIATION

Ref. 7907 1 Annex 17 February 2005

Distribution EFTA/MA

DECISION OF THE JOINT EFTA-MOROCCO COMMITTEE No. 7 of 2004

(Adopted on 26 October 2004)

AMENDMENTS TO PROTOCOL B

THE JOINT COMMITTEE,

Having regard to Protocol B concerning the definition of the concept of "originating products" and methods of administrative co-operation,

Having regard to the establishment and development of a pan-Euro Mediterranean cumulation system, and the creation of a model protocol on rules of origin to be implemented in the pan-Euro Mediterranean cumulation zone,

Noting the Parties' commitment, through the existing pan-European cumulation system, to create an enlarged pan-Euro Mediterranean system,

Noting that an extended system of cumulation is highly desirable in order to improve the effectiveness of this Agreement by allowing the use of goods originating in Morocco and the EFTA States, i.e. Iceland, Norway and Switzerland, as well as for the use of goods originating in the European Community, the European Economic Area, Bulgaria, Romania, the Faeroe Islands, or the countries or territories participating in the Euro-Mediterranean partnership based on the Barcelona Declaration, other than Turkey¹,

Noting that for the above-mentioned reason modifications to the definition of the concept of originating products are required,

Having regard to Article 34 of the Agreement, empowering the Joint Committee to amend Protocol B to this Agreement,

Algeria, Egypt, Israel, Jordan, Lebanon, Morocco, Syria, Tunisia and PLO for the benefit of the Palestinian Authority (West Bank and Gaza Strip).

DECIDES:

- 1. The text of Protocol B shall be replaced by the revised version set out at Annex to this Decision,
- 2. This Decision shall enter into force on 1 March 2005.
- 3. The Secretary-General of the European Free Trade Association shall deposit the text of this Decision with the Depositary.

PROTOCOL B

CONCERNING THE DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS" AND METHODS OF ADMINISTRATIVE CO-OPERATION

partnership based on the Barcelona Declaration

TITLE I

GENERAL PROVISIONS

Article 1

Definitions

For the purposes of this Protocol:

- (a) "manufacture" means any kind of working or processing including assembly or specific operations;
- (b) "material" means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
- (c) "product" means the product being manufactured, even if it is intended for later use in another manufacturing operation;
- (d) "goods" means both materials and products;
- (e) "customs value" means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
- (f) "ex-works price" means the price paid for the product ex works to the manufacturer in an EFTA State or Morocco in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
- (g) "value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in an EFTA State or Morocco;
- (h) "value of originating materials" means the value of such materials as defined in (g) applied *mutatis mutandis*;
- (i) "value added" shall be taken to be the ex-works price minus the customs value of each of the materials incorporated which originate in the other countries and territories referred to in Articles 3 and 4 with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the EFTA State concerned or in Morocco;
- (j) "chapters" and "headings" mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Harmonized

- Commodity Description and Coding System, referred to in this Protocol as "the Harmonized System" or "HS";
- (k) "classified" refers to the classification of a product or material under a particular heading;
- (l) "consignment" means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
- (m) "territories" includes territorial waters;
- (n) "EUR" means "euro", the single currency of the European Monetary Union;
- (o) "an EFTA State" means any of the following states: Iceland, Norway or Switzerland (including Liechtenstein)¹, as the case may be;
- (p) "Party" within the meaning of this Protocol means Morocco, Iceland, Norway, Switzerland or Liechtenstein.

TITLE II

DEFINITION OF THE CONCEPT OF "ORIGINATING PRODUCTS"

Article 2

General requirements

- 1. For the purpose of implementing this Agreement, the following products shall be considered as originating in an EFTA State:
 - (a) products wholly obtained in an EFTA State within the meaning of Article 5;
 - (b) products obtained in an EFTA State incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in an EFTA State within the meaning of Article 6;

Due to the customs union between Switzerland and Liechtenstein, products originating in Liechtenstein are considered as originating in Switzerland.

- (c) goods originating in the European Economic Area (EEA), within the meaning of Protocol 4 to the Agreement on the European Economic Area.
- 2. For the purpose of implementing this Agreement, the following products shall be considered as originating in Morocco:
 - (a) products wholly obtained in Morocco within the meaning of Article 5;
 - (b) products obtained in Morocco incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in Morocco within the meaning of Article 6.
- 3. The provisions of paragraph 1 (c) shall only apply provided a free trade agreement is applicable between, on the one hand, Morocco and, on the other hand, the European Community.

Cumulation in an EFTA State

- 1. Without prejudice to the provisions of Article 2 (1), products shall be considered as originating in an EFTA State if such products are obtained there, incorporating materials originating in Iceland, Norway, Switzerland (including Liechtenstein)¹, Bulgaria, Romania, Turkey or the European Community, provided that the working or processing carried out in the EFTA State concerned goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.
- 2. Without prejudice to the provisions of Article 2 (1), products shall be considered as originating in an EFTA State if such products are obtained there, incorporating materials originating in the Faeroe Islands or in any country or territory which is a participant in the Euro-Mediterranean partnership, based on the Barcelona Declaration adopted at the Euro-Mediterranean Conference held on 27 and 28 November 1995¹, other than Turkey, provided that the working or processing carried out in an EFTA State goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.
- 3. Where the working or processing carried out in an EFTA State does not go beyond the operations referred to in Article 7, the product obtained shall be

The Principality of Liechtenstein forms, pursuant to the Treaty of 29 March 1923, a customs union with Switzerland and is a Contracting Party to the Agreement of 2 May 1992 on the European Economic Area.

A list of the countries or territories participating in the Euro-Mediterranean partnership can be found at Annex V.

considered as originating in the EFTA State concerned only where the value added there is greater than the value of the materials used originating in any one of the other countries and territories referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of originating materials used in the manufacture in the EFTA State concerned.

- 4. Products, originating in one of the countries and territories referred to in paragraphs 1 and 2, which do not undergo any working or processing in the EFTA State concerned, retain their origin if exported into one of these countries and territories.
- 5. The cumulation provided for in this Article may only be applied provided that:
 - (a) a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) is applicable between the countries and territories involved in the acquisition of the originating status and the country of destination;
 - (b) materials and products have acquired originating status by the application of rules of origin identical to those given in this Protocol; and
 - (c) notices indicating the fulfillment of the necessary requirements to apply cumulation have been published in the EFTA States and in Morocco.

The cumulation provided for in this Article shall apply from the date agreed by the Parties concerned and indicated in the notice published in the respective official gazettes.

The EFTA States shall provide Morocco, through the EFTA Secretariat with details of the Agreements, including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries and territories referred to in paragraphs 1 and 2.

Article 4

Cumulation in Morocco

1. Without prejudice to the provisions of Article 2 (2), products shall be considered as originating in Morocco if such products are obtained there, incorporating materials originating in Iceland, Norway, Switzerland (including Liechtenstein)¹, Bulgaria, Romania, Turkey or the European Community, provided that the working or processing carried out in Morocco goes beyond

The Principality of Liechtenstein forms, pursuant to the Treaty of 29 March 1923, a customs union with Switzerland and is a Contracting Party to the Agreement of 2 May 1992 on the European Economic Area.

the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.

- 2. Without prejudice to the provisions of Article 2 (2), products shall be considered as originating in Morocco if such products are obtained there, incorporating materials originating in the Faeroe Islands or in any country or territory which is a participant in the Euro-Mediterranean partnership, based on the Barcelona Declaration adopted at the Euro-Mediterranean Conference held on 27 and 28 November 1995¹, other than Turkey, provided that the working or processing carried out in Morocco goes beyond the operations referred to in Article 7. It shall not be necessary that such materials have undergone sufficient working or processing.
- 3. Where the working or processing carried out in Morocco does not go beyond the operations referred to in Article 7, the product obtained shall be considered as originating in Morocco only where the value added there is greater than the value of the materials used originating in any one of the other countries and territories referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country or territory which accounts for the highest value of originating materials used in the manufacture in Morocco.
- 4. Products, originating in one of the countries and territories referred to in paragraphs 1 and 2, which do not undergo any working or processing in Morocco, retain their origin if exported into one of these countries and territories
- 5. The cumulation provided for in this Article may only be applied provided that:
 - (a) a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) is applicable between the countries and territories involved in the acquisition of the originating status and the country of destination;
 - (b) materials and products have acquired originating status by the application of rules of origin identical to those given in this Protocol; and
 - (c) notices indicating the fulfillment of the necessary requirements to apply cumulation have been published in the EFTA States and in Morocco.

The cumulation provided for in this Article shall apply from the date agreed by the Parties concerned and indicated in the notice published in the respective official gazettes.

A list of the countries or territories participating in the Euro-Mediterranean partnership can be found at Annex V

Morocco shall provide the EFTA States, through the EFTA Secretariat with details of the Agreements, including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries and territories referred to in paragraphs 1 and 2.

Article 5

Wholly obtained products

- 1. The following shall be considered as wholly obtained in an EFTA State or Morocco:
 - (a) mineral products extracted from their soil or from their seabed;
 - (b) vegetable products harvested there;
 - (c) live animals born and raised there;
 - (d) products from live animals raised there;
 - (e) products obtained by hunting or fishing conducted there;
 - (f) products of sea fishing and other products taken from the sea outside the territorial waters of the Parties by their vessels;
 - (g) products made aboard their factory ships exclusively from products referred to in (f);
 - (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;
 - (i) waste and scrap resulting from manufacturing operations conducted there;
 - (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
 - (k) goods produced there exclusively from the products specified in (a) to (j).
- 2. The terms "their vessels" and "their factory ships" in paragraph 1(f) and (g) shall apply only to vessels and factory ships:
 - (a) which are registered or recorded in an EFTA State or in Morocco;
 - (b) which sail under the flag of an EFTA State or of Morocco;
 - (c) which are owned to an extent of at least 50 per cent by nationals of EFTA States or of Morocco, or by a company with its head office in

one of these States, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of EFTA States or of Morocco and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those States or to public bodies or nationals of the said States;

- (d) of which the master and officers are nationals of EFTA States or of Morocco; and
- (e) of which at least 75 per cent of the crew are nationals of EFTA States or of Morocco.

Article 6

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

- 2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:
 - (a) their total value does not exceed 10 per cent of the ex-works price of the product;
 - (b) any of the percentages given in the list for the maximum value of nonoriginating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonized System.

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

Insufficient working or processing

- 1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:
 - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
 - (b) breaking-up and assembly of packages;
 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;
 - (d) ironing or pressing of textiles;
 - (e) simple painting and polishing operations;
 - (f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;
 - (g) operations to colour sugar or form sugar lumps;
 - (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
 - (i) sharpening, simple grinding or simple cutting:
 - (j) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);
 - (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
 - (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;
 - (m) simple mixing of products, whether or not of different kinds;
 - (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
 - (o) a combination of two or more operations specified in (a) to (n);
 - (p) slaughter of animals.
- 2. All operations carried out either in an EFTA State or Morocco on a given product shall be considered together when determining whether the working or

processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 8

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification;
- (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonized System, each product must be taken individually when applying the provisions of this Protocol.
- 2. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 10

Sets

Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15 per cent of the exworks price of the set.

Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 12

Principle of territoriality

- 1. Except as provided for in Article 2(1)(c), Articles 3 and 4 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in an EFTA State or Morocco.
- 2. Except as provided for in Articles 3 and 4, where originating goods exported from an EFTA State or Morocco to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
 - (a) the returning goods are the same as those exported; and
 - (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.
- 3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside an EFTA State or Morocco on materials exported from an EFTA State or Morocco and subsequently re-imported there, provided:

- (a) the said materials are wholly obtained in an EFTA State or Morocco or have undergone working or processing beyond the operations referred to in Article 7 prior to being exported; and
- (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the re-imported goods have been obtained by working or processing the exported materials; and
 - (ii) the total added value acquired outside the EFTA State concerned or Morocco by applying the provisions of this Article does not exceed 10 per cent of the ex-works price of the end product for which originating status is claimed.
- 4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside an EFTA State or Morocco. But where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the State Party concerned, taken together with the total added value acquired outside the EFTA State concerned or Morocco by applying the provisions of this Article, shall not exceed the stated percentage.
- 5. For the purposes of applying the provisions of paragraphs 3 and 4, "total added value" shall be taken to mean all costs arising outside the EFTA State concerned or Morocco, including the value of the materials incorporated there.
- 6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6 (2) is applied.
- 7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonized System.
- 8. Any working or processing of the kind covered by the provisions of this Article and done outside an EFTA State or Morocco shall be done under the outward processing arrangements, or similar arrangements.

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between the Parties or through the territories of the other countries and

territories referred to in Articles 3 and 4 with which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the Parties.

- 2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:
 - (a) a single transport document covering the passage from the exporting country through the country of transit; or
 - (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used; and
 - (iii) certifying the conditions under which the products remained in the transit country; or
 - (c) failing these, any substantiating documents.

Article 14

Exhibitions

- 1. Originating products, sent for exhibition in a country other than those referred to in Articles 3 and 4 with which cumulation is applicable and sold after the exhibition for importation into an EFTA State or Morocco shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:
 - (a) an exporter has consigned these products from an EFTA State or Morocco to the country in which the exhibition is held and has exhibited them there;
 - (b) the products have been sold or otherwise disposed of by that exporter to a person in an EFTA State or Morocco;

- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
- (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
- 2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.
- 3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

DRAWBACK OR EXEMPTION

Article 15

Prohibition of drawback of, or exemption from, customs duties

- 1. Non-originating materials used in the manufacture of products originating in an EFTA State, in Morocco or in one of the other countries and territories referred to in Articles 3 and 4 for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in an EFTA State or Morocco to drawback of, or exemption from, customs duties of whatever kind.
- 2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in an EFTA State or Morocco to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
- 3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

- 4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 8 (2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.
- 5. The provisions of paragraphs 1 to 4 shall apply only in respect of materials which are of the kind to which the Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of the Agreement.
- 6. The prohibition in paragraph 1 shall not apply if the products are considered as originating in an EFTA State or Morocco without application of cumulation with materials originating in one of the other countries and territories referred to in Articles 3 and 4.
- 7. Notwithstanding paragraph 1, Morocco may, except for products falling within Chapters 1 to 24 of the Harmonized System, apply arrangements for drawback of, or exception from, customs duties or charges having an equivalent effect, applicable to non-originating materials used in the manufacture or originating products, subject to the following provisions:
 - (a) a 5 per cent rate of customs charge shall be retained in respect of products falling within Chapters 25 to 49 and 64 to 97 of the Harmonized System, or such lower rate as is in force in Morocco;
 - (b) a 10 per cent rate of customs charge shall be retained in respect of products falling within Chapters 50 to 63 of the Harmonized System, or such lower rate as is in force in Morocco.

The provisions of this paragraph shall apply until 31 December 2009 and may be reviewed by common accord.

TITLE V

PROOF OF ORIGIN

Article 16

General requirements

- 1. Products originating in an EFTA State shall, on importation into Morocco and products originating in Morocco shall, on importation into an EFTA State, benefit from the Agreement upon submission of one of the following proofs of origin:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex III a;
 - (b) a movement certificate EUR-MED, a specimen of which appears in Annex III b;
 - (c) in the cases specified in Article 22 (1), a declaration, subsequently referred to as the "invoice declaration" or the "invoice declaration EUR-MED", given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the texts of the invoice declarations appear in Annexes IV a and b.
- 2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 27, benefit from the Agreement without it being necessary to submit any of the documents referred to above.

Article 17

Procedure for the issue of a movement certificate EUR.1 or EUR-MED

- 1. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities or the competent government authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.
- 2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 or EUR-MED and the application form, specimens of which appear in Annexes III a and b. These forms shall be completed in one of the official languages of a Party, or in English, in accordance with the provisions of the domestic law of the exporting country. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely

filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

- 3. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall be prepared to submit at any time, at the request of the customs authorities or the competent government authorities of the exporting country where the movement certificate EUR.1 or EUR-MED is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
- 4. Without prejudice to paragraph 5, a movement certificate EUR.1 shall be issued by the customs authorities or the competent government authorities of an EFTA State or Morocco in the following cases:
 - if the products concerned can be considered as products originating in an EFTA State, or in Morocco, without application of cumulation with materials originating in one of the countries and territories referred to in Articles 3 and 4, and fulfil the other requirements of this Protocol;
 - if the products concerned can be considered as products originating in one of the other countries and territories referred to in Articles 3 and 4 with which cumulation is applicable, without application of cumulation with materials originating in one of the other countries and territories referred to in Articles 3 and 4, and fulfil the other requirements of this Protocol, provided that a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin;
- 5. A movement certificate EUR-MED shall be issued by the customs authorities or the competent government authorities of an EFTA State or Morocco if the products concerned can be considered as products originating in an EFTA State, in Morocco or in one of the other countries and territories referred to in Articles 3 and 4 with which cumulation is applicable, fulfil the other requirements of this Protocol and:
 - cumulation was applied with materials originating in one of the countries and territories referred to Articles 3 and 4, or
 - the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the countries and territories referred to in Articles 3 and 4, or
 - the products may be re-exported from the country of destination to one of the other countries and territories referred to in Articles 3 and 4.
- 6. A movement certificate EUR-MED shall contain one of the following statements in English in Box 7:
 - if origin has been obtained by application of cumulation with one or more of the countries and territories referred to in Articles 3 and 4:

"CUMULATION APPLIED WITH" (name of the country/countries

- if origin has been obtained without the application of cumulation of with one or more of the countries and territories referred to in Articles 3 and 4:

"NO CUMULATION APPLIED"

- 7. The customs authorities or the competent government authorities issuing movement certificates EUR.1 or EUR-MED shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.
- 8. The date of issue of the movement certificate EUR.1 or EUR-MED shall be indicated in Box 11 of the certificate.
- 9. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities or the competent government authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 18

Movement certificates EUR.1 or EUR-MED issued retrospectively

- 1. Notwithstanding Article 17 (9), a movement certificate EUR.1 or EUR-MED may exceptionally be issued after exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
 - (b) it is demonstrated to the satisfaction of the customs authorities or the competent government authorities that a movement certificate EUR.1 or EUR-MED was issued but was not accepted at importation for technical reasons.
- 2. Notwithstanding Article 17 (9), a movement certificate EUR-MED may be issued after exportation of the products to which it relates and for which a movement certificate EUR.1 was issued at the time of exportation, provided that it is demonstrated to the satisfaction of the customs authorities or the competent government authorities that the conditions referred to in Article 17(5) are satisfied.

- 3. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 or EUR-MED relates, and state the reasons for his request.
- 4. The customs authorities or the competent government authorities may issue a movement certificate EUR.1 or EUR-MED retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.
- 5. Movement certificates EUR.1 or EUR-MED issued retrospectively by application of paragraph 1 must be endorsed with the following phrase in English:

"ISSUED RETROSPECTIVELY"

Movement certificates EUR-MED issued retrospectively by application of paragraph 2 must be endorsed with the following phrase in English:

"ISSUED RETROSPECTIVELY (Original EUR.1 no......[date and place of issue])"

6. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the movement certificate EUR.1 or EUR-MED.

Article 19

Issue of a duplicate movement certificate EUR.1 or EUR-MED

- 1. In the event of theft, loss or destruction of a movement certificate EUR.1 or EUR-MED, the exporter may apply to the customs authorities or the competent government authorities which issued it for a duplicate made out on the basis of the export documents in their possession.
- 2. The duplicate issued in this way must be endorsed with the following word in English:

"DUPLICATE"

- 3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1 or EUR-MED.
- 4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1 or EUR-MED, shall take effect as from that date.

Issue of movement certificates EUR.1 or EUR-MED on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in an EFTA State or Morocco, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 or EUR-MED for the purpose of sending all or some of these products elsewhere within an EFTA State or Morocco. The replacement movement certificate(s) EUR.1 or EUR-MED shall be issued by the customs office under whose control the products are placed.

Article 21

Accounting segregation

- 1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities or the competent government authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method to be used for managing such stocks.
- 2. This method must be able to ensure that, for a specific reference-period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained if there had been physical segregation of the stocks.
- 3. The customs authorities or the competent government authorities may grant such authorisation, subject to any conditions deemed appropriate.
- 4. This method is recorded and applied on the basis of the general accounting principles applicable in the country where the product was manufactured.
- 5. The beneficiary of this facilitation may issue or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities or the competent government authorities, the beneficiary shall provide a statement of how the quantities have been managed.
- 6. The customs authorities or the competent government authorities shall monitor the use made of the authorisation and may withdraw it at any time whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

Conditions for making out an invoice declaration or an invoice declaration EUR-MED

- 1. An invoice declaration or an invoice declaration EUR-MED as referred to in Article 16(1)(c) may be made out:
 - (a) by an approved exporter within the meaning of Article 23, or
 - (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6,000.
- 2. Without prejudice to paragraph 3, an invoice declaration shall be issued in the following cases:
 - if the products concerned can be considered as products originating in an EFTA State, or in Morocco, without application of cumulation with materials originating in one of the countries and territories referred to in Articles 3 and 4, and fulfil the other requirements of this Protocol;
 - if the products concerned can be considered as products originating in one of the other countries and territories referred to in Articles 3 and 4 with which cumulation is applicable, without application of cumulation with materials originating in one of the other countries and territories referred to in Articles 3 and 4, and fulfil the other requirements of this Protocol, provided that a certificate EUR-MED or an invoice declaration EUR-MED has been issued in the country of origin;
- 3. An invoice declaration EUR-MED shall be made out if the products concerned can be considered as products originating in an EFTA State, in Morocco or in one of the other countries and territories referred to in Articles 3 and 4 with which cumulation is applicable, fulfil the other requirements of this Protocol and:
 - cumulation was applied with materials originating in one of the countries and territories referred to Articles 3 and 4, or
 - the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the countries and territories referred to in Articles 3 and 4, or
 - the products may be re-exported from the country of destination to one of the other countries and territories referred to in Articles 3 and 4.
- 4. An invoice declaration EUR-MED shall contain one of the following statements in English:

- if origin has been obtained by application of cumulation with one or more of the countries and territories referred to in Articles 3 and 4:

"CUMULATION APPLIED WITH" (name of the country/countries

- if origin has been obtained without the application of cumulation of with one or more of the countries and territories referred to in Articles 3 and 4:

"NO CUMULATION APPLIED"

- 5. The exporter making out an invoice declaration or an invoice declaration EUR-MED shall be prepared to submit at any time, at the request of the customs authorities or the competent government authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
- 6. An invoice declaration or an invoice declaration EUR-MED shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annexes IV a and b, using one of the linguistic versions set out in these Annexes and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.
- 7. Invoice declarations and invoice declarations EUR-MED shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 23 shall not be required to sign such declarations provided that he gives the customs authorities or the competent government authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
- 8. An invoice declaration or an invoice declaration EUR-MED may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

Article 23

Approved exporter

1. The customs authorities or the competent government authorities of the exporting country may authorise any exporter, hereafter referred to as "approved exporter", who makes frequent shipments of products under this Agreement to make out invoice declarations or invoice declarations EUR-MED irrespective of the value of the products concerned. An exporter seeking

such authorisation must offer to the satisfaction of the customs authorities or the competent government authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

- 2. The customs authorities or the competent government authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
- 3. The customs authorities or the competent government authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration or the invoice declaration EUR-MED.
- 4. The customs authorities or the competent government authorities shall monitor the use of the authorisation by the approved exporter.
- 5. The customs authorities or the competent government authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 24

Validity of proof of origin

- 1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities or the competent government authorities of the importing country.
- 2. Proofs of origin which are submitted to the customs authorities or the competent government authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
- 3. In other cases of belated presentation, the customs authorities or the competent government authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 25

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities or the competent government authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a

translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 26

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities or the competent government authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities or the competent government authorities upon importation of the first instalment.

Article 27

Exemptions from proof of origin

- 1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22 / CN23 or on a sheet of paper annexed to that document.
- 2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
- 3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1,200 in the case of products forming part of travellers' personal luggage.

Article 28

Supporting documents

The documents referred to in Articles 17(3) and 22(5) used for the purpose of proving that products covered by a movement certificate EUR.1, a movement certificate EUR-MED, an invoice declaration or an invoice declaration EUR-

MED can be considered as products originating in an EFTA State, in Morocco or in one of the other countries and territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol may consist inter alia of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in an EFTA State or in Morocco where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in an EFTA State or in Morocco, issued or made out in an EFTA State or in Morocco, where these documents are used in accordance with domestic law;
- (d) movement certificates EUR.1, movement certificates EUR-MED, invoice declarations or invoice declarations EUR-MED proving the originating status of materials used, issued or made out in an EFTA State or Morocco in accordance with this Protocol, or in one of the other countries and territories referred to in Articles 3 and 4, in accordance with rules of origin which are identical to the rules in this Protocol;
- (e) appropriate evidence concerning working and processing undergone outside an EFTA State, Morocco or the other countries and territories referred to in Articles 3 and 4 by application of Article 12, proving that the requirements of that Article have been satisfied.

Article 29

Preservation of proof of origin and supporting documents

- 1. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall keep for at least three years the documents referred to in Article 17(3).
- 2. The exporter making out an invoice declaration or an invoice declaration EUR-MED shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 22(5).
- 3. The customs authorities or the competent government authorities of the exporting country issuing a movement certificate EUR.1 or EUR-MED shall keep for at least three years the application form referred to in Article 17(2).
- 4. The customs authorities or the competent government authorities of the importing country shall keep for at least three years the movement certificates

EUR.1, the movement certificates EUR-MED, the invoice declarations and the invoice declarations EUR-MED submitted to them.

Article 30

Discrepancies and formal errors

- 1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
- 2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 31

Amounts expressed in euro

- 1. For the application of the provisions of Article 22(1)(b) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the countries and territories referred to in Articles 3 and 4 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries and territories concerned.
- 2. A consignment shall benefit from the provisions of Article 22(1)(b) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country or territory concerned.
- 3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October and shall apply from 1 January the following year. The Parties shall be notified of the relevant amounts
- 4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 per cent.

A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Joint Committee at the request of any of the Parties. When carrying out this review, the Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE CO-OPERATION

Article 32

Mutual assistance

- 1. The customs authorities or the competent government authorities of the EFTA States and of Morocco shall provide each other, through the EFTA Secretariat, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and EUR-MED with the addresses of the customs authorities or the competent government authorities responsible for verifying those certificates, invoice declarations and invoice declarations EUR-MED.
- 2. In order to ensure the proper application of this Protocol, the EFTA States and Morocco shall assist each other, through the competent customs administrations, in checking the authenticity of movement certificates EUR.1, movement certificates EUR-MED, the invoice declarations and the invoice declarations EUR-MED, and the correctness of the information given in these documents.

Article 33

Verification of proofs of origin

- 1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities or the competent government authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
- 2. For the purposes of implementing the provisions of paragraph 1, the customs authorities or the competent government authorities of the importing country shall return the movement certificate EUR.1 or EUR-MED and the invoice, if it has been submitted, the invoice declaration or the invoice declaration EUR-MED, or a copy of these documents, to the customs authorities or the competent government authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information

obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

- 3. The verification shall be carried out by the customs authorities or the competent government authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
- 4. If the customs authorities or the competent government authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
- 5. The customs authorities or the competent government authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in an EFTA State, in Morocco or in one of the other countries and territories referred to in Articles 3 and 4 and fulfil the other requirements of this Protocol.
- 6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities or the competent government authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities or the competent government authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the EFTA-Morocco Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities or the competent government authorities of the importing country shall be under the legislation of the said country.

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 36

Free zones

- 1. The EFTA States and Morocco shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
- 2. By means of an exemption to the provisions contained in paragraph 1, when products originating in an EFTA State or Morocco are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 or EUR-MED at the exporter's request, if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII

FINAL PROVISIONS

Article 37

Sub-Committee on customs and origin matters

- 1. A Sub-Committee of the Joint Committee on Customs and Origin Matters is hereby established.
- 2. The functions of the Sub-Committee shall be to exchange information, review developments, prepare and co-ordinate positions, prepare technical amendments to the rules of origin and assist the Joint Committee regarding:
 - (a) rules of origin and administrative co-operation as set out in this Protocol:

- (b) other matters that are referred to the Sub-Committee by the Joint Committee.
- 3. The Sub-Committee shall be chaired alternatively by a representative of an EFTA State or Morocco for an agreed period of time. The chairperson shall be elected at the first meeting of the Sub-Committee. The Sub-Committee shall act by consensus.
- 4. The Sub-Committee shall report to the Joint Committee. The Sub-Committee may make recommendations to the Joint Committee on matters related to its functions.
- 5. The Sub-Committee shall meet as often as required. It may be convened by the Joint Committee, by the chairperson of the Sub-Committee on his/her own initiative or upon request of any Party. The venue shall alternate between Morocco and an EFTA State.
- 6. A provisional agenda for each meeting shall be prepared by the chairperson in consultation with all Parties, and forwarded to the Parties, as a general rule, not later than two weeks before the meeting.

Transitional provision for goods in transit or storage

The provisions of this Agreement may be applied to goods which comply with the provisions of this Protocol and which on the date of entry into force of this Protocol are either in transit or are in an EFTA State or in Morocco in temporary storage in customs warehouses or in free zones, subject to the submission to the customs authorities of the importing country, within four months of the said date, of a movement certificate EUR.1 or EUR-MED issued retrospectively by the customs authorities or the competent government authorities of the exporting country together with the documents showing that the goods have been transported directly in accordance with the provisions of Article 13.

Article 39

Annexes

The Annexes to this Protocol shall form an integral part thereof.

ANNEX I TO PROTOCOL B

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of the Protocol.

Note 2:

- 2.1 The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2 Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3 Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4 Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

3.1 The provisions of Article 6 of the Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Party.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40 per cent of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading ex 7224.

If this forging has been forged in the Party concerned from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Party concerned. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2 The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3 Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

3.4 When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

3.5 Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth - even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn - that is, the fibre stage.

Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1 The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed, but not spun.
- 4.2 The term "natural fibres" includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as the wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and the other vegetable fibres of headings 5301 to 5305.
- 4.3 The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4 The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- Where, for a given product in the list, a reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).
- 5.2 However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus Agave,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,
- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of poly(phenylene sulphide),
- synthetic man-made staple fibres of poly(vinyl chloride),
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,

- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin-rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10 per cent of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

5.3 In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20 per cent in respect of this yarn.

In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 per cent in respect of this strip.

Note 6:

- Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8 per cent of the ex-works price of the product.
- 6.2 Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

6.3 Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7

- 7.1 For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification

with naturally active earth, activated earth, activated charcoal or bauxite;

- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.
- 7.2 For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:
 - (a) vacuum-distillation;
 - (b) redistillation by a very thorough fractionation-process;
 - (c) cracking;
 - (d) reforming;
 - (e) extraction by means of selective solvents;
 - (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
 - (g) polymerisation;
 - (h) alkylation;
 - (ij) isomerisation;
 - (k) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 per cent of the sulphurcontent of the products processed (ASTM D 1266-59 T method);
 - (l) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
 - (m) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250°C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

- (n) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300°C by the ASTM D 86 method;
- (o) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
- (p) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 per cent of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.
- 7.3 For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur contents, any combination of these operations or like operations, do not confer origin.

ANNEX II TO PROTOCOL B

List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status

The products mentioned in the list may not be all covered by the Agreement. It is, therefore, necessary to consult the other parts of the Agreement.

HS heading	Description of product	Working or processing, carried out on non-originat confers originating status	ing materials, which
(1)	(2)	(3) or	(4)
Chapter 1	Live animals	All the animals of Chapter 1 shall be wholly obtained	.,
Chapter 2	Meat and edible meat offal	Manufacture in which all the materials of Chapters 1 and 2 used are wholly obtained	
Chapter 3	Fish and crustaceans, molluscs and other aquatic invertebrates	Manufacture in which all the materials of Chapter 3 used are wholly obtained	
ex Chapter 4	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included; except for: Buttermilk, curdled milk and	Manufacture in which all the materials of Chapter 4 used are wholly obtained Manufacture in which:	
0403	cream, yoghurt, kephir and other fermented or acidified milk and cream, whether or not concentrated or containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa	- all the materials of Chapter 4 used are wholly obtained, - all the fruit juice (except that of pineapple, lime or grapefruit) of heading 2009 used is originating, and - the value of all the materials of Chapter 17 used does not exceed 30 % of the ex-works price of the product	
ex Chapter 5	Products of animal origin, not elsewhere specified or included; except for: Prepared pigs', hogs' or boars'	Manufacture in which all the materials of Chapter 5 used are wholly obtained Cleaning, disinfecting, sorting and	
Chapter 6	bristles and hair Live trees and other plants; bulbs,	straightening of bristles and hair Manufacture in which:	
	roots and the like; cut flowers and ornamental foliage	- all the materials of Chapter 6 used are wholly obtained, and - the value of all the materials used does not exceed 50 % of the exworks price of the product	
Chapter 7	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used are wholly obtained	

(1)	(2)	(3)	or (4)
Chapter 8	Edible fruit and nuts; peel of	Manufacture in which:	
_	citrus fruits or melons	- all the fruit and nuts used are	
		wholly obtained, and	
		- the value of all the materials of	
		Chapter 17 used does not exceed	
		30 % of the value of the ex-works	
		price of the product	
ex Chapter 9	Coffee, tea, maté and spices;	Manufacture in which all the	
	except for:	materials of Chapter 9 used are	
		wholly obtained	
0901	Coffee, whether or not roasted or	Manufacture from materials of any	
	decaffeinated; coffee husks and	heading	
	skins; coffee substitutes		
	containing coffee in any		
	proportion		
0902	Tea, whether or not flavoured	Manufacture from materials of any	
		heading	
ex 0910	Mixtures of spices	Manufacture from materials of any	
		heading	
Chapter 10	Cereals	Manufacture in which all the	
		materials of Chapter 10 used are	
		wholly obtained	
ex Chapter 11	Products of the milling industry;	Manufacture in which all the	
	malt; starches; inulin; wheat	cereals, edible vegetables, roots and	
	gluten; except for:	tubers of heading 0714 or fruit used	
		are wholly obtained	
ex 1106	Flour, meal and powder of the	Drying and milling of leguminous	
	dried, shelled leguminous	vegetables of heading 0708	
	vegetables of heading 0713		

(1)	(2)	(3) or	(4)
Chapter 12	Oil seeds and oleaginous fruits;	Manufacture in which all the	
	miscellaneous grains, seeds and fruit; industrial or medicinal	materials of Chapter 12 used are wholly obtained	
	plants; straw and fodder		
1301	Lac; natural gums, resins, gum-	Manufacture in which the value of	
	resins and oleoresins (for example, balsams)	all the materials of heading 1301 used does not exceed 50 % of the	
	example, balsams)	ex-works price of the product	
1302	Vegetable saps and extracts;		
	pectic substances, pectinates and pectates; agar-agar and other		
	mucilages and thickeners,		
	whether or not modified, derived		
	from vegetable products: - Mucilages and thickeners,	Manufacture from non-modified	
	modified, derived from	mucilages and thickeners	
	vegetable products	Manufacture in which the value of	
	- Other	Manufacture in which the value of all the materials used does not	
		exceed 50 % of the ex-works price	
Chanter 14	Vogotable plaiting protection	of the product	
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere	Manufacture in which all the materials of Chapter 14 used are	
	specified or included	wholly obtained	
ex Chapter 15	Animal or vegetable fats and oils	Manufacture from materials of any	
	and their cleavage products; prepared edible fats; animal or	heading, except that of the product	
	vegetable waxes; except for:		
1501	Pig fat (including lard) and		
	poultry fat, other than that of heading 0209 or 1503:		
	- Fats from bones or waste	Manufacture from materials of any	
		heading, except those of heading 0203, 0206 or 0207 or	
		bones of heading 0506	
	- Other	Manufacture from meat or edible	
		offal of swine of heading 0203 or 0206 or of meat and edible offal	
		of poultry of heading 0207	
1502	Fats of bovine animals, sheep or		
	goats, other than those of heading 1503		
	- Fats from bones or waste	Manufacture from materials of any	
		heading, except those of	
		heading 0201, 0202, 0204 or 0206 or bones of heading 0506	
	- Other	Manufacture in which all the	
		materials of Chapter 2 used are	
1504	Fats and oils and their fractions,	wholly obtained	
-	of fish or marine mammals,		
	whether or not refined, but not chemically modified:		
	- Solid fractions	Manufacture from materials of any	
		heading, including other materials	
	- Other	of heading 1504 Manufacture in which all the	
	Julio	materials of Chapters 2 and 3 used	
1505	D. Co. d leaville	are wholly obtained	
ex 1505	Refined lanolin	Manufacture from crude wool grease of heading 1505	
1506	Other animal fats and oils and		
	their fractions, whether or not		
	refined, but not chemically modified:		
	- Solid fractions	Manufacture from materials of any	
		heading, including other materials of heading 1506	
	- Other	Manufacture in which all the	
		materials of Chapter 2 used are	
1507 to 1515	Vegetable oils and their fractions:	wholly obtained	
1507 to 1515	vegetable ons and their fractions:		

(1)	(2)	(3) 0	r (4)
(1)	- Soya, ground nut, palm, copra,	(3) o Manufacture from materials of any	(4)
	palm kernel, babassu, tung and	heading, except that of the product	
	oiticica oil, myrtle wax and	37 1	
	Japan wax, fractions of jojoba		
	oil and oils for technical or industrial uses other than the		
	manufacture of foodstuffs for		
	human consumption		
	- Solid fractions, except for that	Manufacture from other materials	
	of jojoba oil	of headings 1507 to 1515	
	- Other	Manufacture in which all the	
		vegetable materials used are wholly obtained	
1516	Animal or vegetable fats and oils	Manufacture in which:	
	and their fractions, partly or	- all the materials of Chapter 2 used	
	wholly hydrogenated, inter-	are wholly obtained, and	
	esterified, re-esterified or elaidinised, whether or not	- all the vegetable materials used are wholly obtained. However,	
	refined, but not further prepared	materials of headings 1507, 1508,	
		1511 and 1513 may be used	
1517	Margarine; edible mixtures or	Manufacture in which:	
	preparations of animal or vegetable fats or oils or of	- all the materials of Chapters 2 and 4 used are wholly obtained,	
	fractions of different fats or oils	and	
	of this Chapter, other than edible	- all the vegetable materials used	
	fats or oils or their fractions of	are wholly obtained. However,	
	heading 1516	materials of headings 1507, 1508, 1511 and 1513 may be used	
Chapter 16	Preparations of meat, of fish or of	Manufacture:	
•	crustaceans, molluscs or other	- from animals of Chapter 1, and/or	
	aquatic invertebrates	- in which all the materials of	
		Chapter 3 used are wholly obtained	
ex Chapter 17	Sugars and sugar confectionery;	Manufacture from materials of any	
	except for:	heading, except that of the product	
ex 1701	Cane or beet sugar and	Manufacture in which the value of	
	chemically pure sucrose, in solid form, containing added	all the materials of Chapter 17 used	
	flavouring or colouring matter	does not exceed 30 % of the ex- works price of the product	
1702	Other sugars, including	words price of the product	
	chemically pure lactose, maltose,		
	glucose and fructose, in solid		
	form; sugar syrups not containing added flavouring or colouring		
	matter; artificial honey, whether		
	or not mixed with natural honey;		
	caramel:	Manufacture from materials of any	
	- Chemically-pure maltose and fructose	Manufacture from materials of any heading, including other materials	
		of heading 1702	
	- Other sugars in solid form,	Manufacture in which the value of	
	containing added flavouring or colouring matter	all the materials of Chapter 17 used does not exceed 30 % of the ex-	
	Colouring matter	works price of the product	
	- Other	Manufacture in which all the	
1702	M. I. de d	materials used are originating	
ex 1703	Molasses resulting from the extraction or refining of sugar,	Manufacture in which the value of all the materials of Chapter 17 used	
	containing added flavouring or	does not exceed 30 % of the ex-	
	colouring matter	works price of the product	
1704	Sugar confectionery (including	Manufacture:	
	white chocolate), not containing	- from materials of any heading, except that of the product, and	
	Cocoa	- in which the value of all the	
		materials of Chapter 17 used does	
		not exceed 30 % of the ex-works	
Chantar 10	Coope and coope areas	price of the product	
Chapter 18	Cocoa and cocoa preparations	Manufacture: - from materials of any heading,	
		except that of the product, and	
		- in which the value of all the	
		materials of Chapter 17 used does	
		not exceed 30 % of the ex-works price of the product	
	L	price of the product	

(1)	(2)	(3)	or (4)
1901	Malt extract; food preparations of		(')
	flour, groats, meal, starch or malt		
	extract, not containing cocoa or		
	containing less than 40 % by		
	weight of cocoa calculated on a totally defatted basis, not		
	elsewhere specified or included;		
	food preparations of goods of		
	headings 0401 to 0404, not		
	containing cocoa or containing less than 5 % by weight of cocoa		
	calculated on a totally defatted		
	basis, not elsewhere specified or		
	included:		
	- Malt extract	Manufacture from cereals of Chapter 10	
	- Other	Manufacture:	
		- from materials of any heading,	
		except that of the product, and	
		- in which the value of all the materials of Chapter 17 used does	
		not exceed 30 % of the ex-works	
		price of the product	
1902	Pasta, whether or not cooked or		
	stuffed (with meat or other substances) or otherwise		
	prepared, such as spaghetti,		
	macaroni, noodles, lasagne,		
	gnocchi, ravioli, cannelloni;		
	couscous, whether or not prepared:		
	- Containing 20 % or less by	Manufacture in which all the cereals	
	weight of meat, meat offal, fish,	and derivatives (except durum	
	crustaceans or molluscs	wheat and its derivatives) used are	
	- Containing more than 20 % by	wholly obtained Manufacture in which:	
	weight of meat, meat offal, fish,	- all the cereals and their	
	crustaceans or molluscs	derivatives (except durum wheat	
		and its derivatives) used are	
		wholly obtained, and - all the materials of Chapters 2	
		and 3 used are wholly obtained	
1903	Tapioca and substitutes therefore	Manufacture from materials of any	
	prepared from starch, in the form	heading, except potato starch of	
	of flakes, grains, pearls, siftings or similar forms	heading 1108	
1904	Prepared foods obtained by the	Manufacture:	
	swelling or roasting of cereals or	- from materials of any heading,	
	cereal products (for example,	except those of heading 1806,	
	corn flakes); cereals (other than maize (corn)) in grain form or in	- in which all the cereals and flour (except durum wheat and <i>Zea</i>	
	the form of flakes or other	indurata maize, and their	
	worked grains (except flour,	derivatives) used are wholly	
	groats and meal), pre-cooked or otherwise prepared, not elsewhere	obtained, and - in which the value of all the	
	specified or included	materials of Chapter 17 used does	
	*	not exceed 30 % of the ex-works	
1005		price of the product	
1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or	Manufacture from materials of any heading, except those of Chapter 11	
	not containing cocoa; communion	neading, except tilose of Chapter 11	
	wafers, empty cachets of a kind		
	suitable for pharmaceutical use,		
	sealing wafers, rice paper and similar products		
ex Chapter 20	Preparations of vegetables, fruit,	Manufacture in which all the fruit,	
w	nuts or other parts of plants;	nuts or vegetables used are wholly	
2001	except for:	obtained	
ex 2001	Yams, sweet potatoes and similar edible parts of plants containing	Manufacture from materials of any heading, except that of the product	
	5 % or more by weight of starch,	neading, except that of the product	
	prepared or preserved by vinegar		
	or acetic acid	l	l l

(1)	(2)	(3) 0	r (4)
ex 2004 and	Potatoes in the form of flour,	Manufacture from materials of any	(-)
ex 2005	meal or flakes, prepared or	heading, except that of the product	
	preserved otherwise than by		
	vinegar or acetic acid		
2006	Vegetables, fruit, nuts, fruit-peel	Manufacture in which the value of	
	and other parts of plants,	all the materials of Chapter 17 used	
	preserved by sugar (drained,	does not exceed 30 % of the ex-	
2007	glacé or crystallized)	works price of the product	
2007	Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut	Manufacture: - from materials of any heading,	
	pastes, obtained by cooking,	except that of the product, and	
	whether or not containing added	- in which the value of all the	
	sugar or other sweetening matter	materials of Chapter 17 used does	
		not exceed 30 % of the ex-works	
		price of the product	
ex 2008	- Nuts, not containing added	Manufacture in which the value of	
	sugar or spirits	all the originating nuts and oil seeds	
		of headings 0801, 0802 and 1202	
		to 1207 used exceeds 60 % of the ex-works price of the product	
	- Peanut butter; mixtures based	Manufacture from materials of any	
	on cereals; palm hearts; maize	heading, except that of the product	
	(corn)	<i>5,</i>	
	- Other except for fruit and nuts	Manufacture:	
	cooked otherwise than by	- from materials of any heading,	
	steaming or boiling in water,	except that of the product, and	
	not containing added sugar, frozen	- in which the value of all the materials of Chapter 17 used does	
	Irozen	not exceed 30 % of the ex-works	
		price of the product	
2009	Fruit juices (including grape	Manufacture:	
	must) and vegetable juices,	- from materials of any heading,	
	unfermented and not containing	except that of the product, and	
	added spirit, whether or not	- in which the value of all the	
	containing added sugar or other	materials of Chapter 17 used does not exceed 30 % of the ex-works	
	sweetening matter	price of the product	
ex Chapter 21	Miscellaneous edible	Manufacture from materials of any	
ex chapter 21	preparations; except for:	heading, except that of the product	
2101	Extracts, essences and	Manufacture:	
	concentrates, of coffee, tea or	- from materials of any heading,	
	maté and preparations with a	except that of the product, and	
	basis of these products or with a	- in which all the chicory used is	
	basis of coffee, tea or maté;	wholly obtained	
	roasted chicory and other roasted coffee substitutes, and extracts,		
	essences and concentrates thereof		
2103	Sauces and preparations therefor;		
	mixed condiments and mixed		
	seasonings; mustard flour and		
	meal and prepared mustard:		
	- Sauces and preparations	Manufacture from materials of any	
	therefor; mixed condiments and	heading, except that of the product.	
	mixed seasonings	However, mustard flour or meal or prepared mustard may be used	
	- Mustard flour and meal and	Manufacture from materials of any	
	prepared mustard	heading	
ex 2104	Soups and broths and	Manufacture from materials of any	
	preparations therefor	heading, except prepared or	
		preserved vegetables of	
2106		headings 2002 to 2005	
2106	Food preparations not elsewhere	Manufacture:	
	specified or included	- from materials of any heading, except that of the product, and	
		- in which the value of all the	
		materials of Chapter 17 used does	
		not exceed 30 % of the ex-works	
		price of the product	
ex Chapter 22	Beverages, spirits and vinegar;	Manufacture:	
	except for:	- from materials of any heading,	
		except that of the product, and	
		- in which all the grapes or materials derived from grapes	
		used are wholly obtained	
	•	2	•

(1)	(2)	(3) 0	r (4)
2202	Waters, including mineral waters and aerated waters, containing	Manufacture: - from materials of any heading,	
	added sugar or other sweetening	except that of the product,	
	matter or flavoured, and other non-alcoholic beverages, not	- in which the value of all the materials of Chapter 17 used does	
	including fruit or vegetable juices	not exceed 30 % of the ex-works	
	of heading 2009	price of the product, and	
		- in which all the fruit juice used	
		(except that of pineapple, lime or grapefruit) is originating	
2207	Undenatured ethyl alcohol of an	Manufacture:	
	alcoholic strength by volume of	- from materials of any heading,	
	80 % vol or higher; ethyl alcohol and other spirits, denatured, of	except heading 2207 or 2208, and - in which all the grapes or	
	any strength	materials derived from grapes	
		used are wholly obtained or, if all	
		the other materials used are already originating, arrack may be	
		used up to a limit of 5 % by	
		volume	
2208	Undenatured ethyl alcohol of an	Manufacture:	
	alcoholic strength by volume of less than 80 % vol; spirits,	- from materials of any heading, except heading 2207 or 2208, and	
	liqueurs and other spirituous	- in which all the grapes or	
	beverages	materials derived from grapes used are wholly obtained or, if all	
		the other materials used are	
		already originating, arrack may be	
		used up to a limit of 5 % by volume	
ex Chapter 23	Residues and waste from the food	Manufacture from materials of any	
•	industries; prepared animal	heading, except that of the product	
ex 2301	fodder; except for: Whale meal; flours, meals and	Manufacture in which all the	
C.1. 23 0 1	pellets of fish or of crustaceans,	materials of Chapters 2 and 3 used	
	molluses or other aquatic	are wholly obtained	
	invertebrates, unfit for human consumption		
ex 2303	Residues from the manufacture of	Manufacture in which all the maize	
	starch from maize (excluding	used is wholly obtained	
	concentrated steeping liquors), of a protein content, calculated on		
	the dry product, exceeding 40 %		
ex 2306	by weight Oil cake and other solid residues	Manufacture in which all the olives	
ex 2300	resulting from the extraction of	used are wholly obtained	
	olive oil, containing more than		
2309	3 % of olive oil Preparations of a kind used in	Manufacture in which:	
2309	animal feeding	- all the cereals, sugar or molasses,	
		meat or milk used are originating,	
		and - all the materials of Chapter 3 used	
		are wholly obtained	
ex Chapter 24	Tobacco and manufactured	Manufacture in which all the	
	tobacco substitutes; except for:	materials of Chapter 24 used are wholly obtained	
2402	Cigars, cheroots, cigarillos and	Manufacture in which at least 70 %	
	cigarettes, of tobacco or of	by weight of the unmanufactured	
	tobacco substitutes	tobacco or tobacco refuse of heading 2401 used is originating	
ex 2403	Smoking tobacco	Manufacture in which at least 70 %	
		by weight of the unmanufactured	
		tobacco or tobacco refuse of heading 2401 used is originating	
ex Chapter 25	Salt; sulphur; earths and stone;	Manufacture from materials of any	
	plastering materials, lime and	heading, except that of the product	
ex 2504	cement; except for: Natural crystalline graphite, with	Enriching of the carbon content,	
	enriched carbon content, purified	purifying and grinding of crude	
ex 2515	and ground Marble, merely cut, by sawing or	crystalline graphite Cutting, by sawing or otherwise, of	
CA 2313	otherwise, into blocks or slabs of	marble (even if already sawn) of a	
	a rectangular (including square)	thickness exceeding 25 cm	
	shape, of a thickness not exceeding 25 cm		
	exceeding 23 cm	I	ı

(1)	(2)	(3) or	(4)
ex 2516	Granite, porphyry, basalt,	Cutting, by sawing or otherwise, of

ex 3807	Wood pitch (wood tar pitch)	Distillation of wood tar	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3808	Insecticides, rodenticides, fungicides, herbicides, antisprouting products and plant-growth regulators, disinfectants and similar products, put up in forms or packings for retail sale or as preparations or articles (for example, sulphur-treated bands, wicks and candles, and flypapers)	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	of the product
3809	Finishing agents, dye carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for example, dressings and mordants), of a kind used in the textile, paper, leather or like industries, not elsewhere specified or included	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	
3810	Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for soldering, brazing or welding; soldering, brazing or welding powders and pastes consisting of metal and other materials; preparations of a kind used as cores or coatings for welding electrodes or rods	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the products	
3811	Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or for other liquids used for the same purposes as mineral oils: - Prepared additives for lubricating oil, containing petroleum oils or oils obtained from bituminous minerals - Other	Manufacture in which the value of all the materials of heading 3811 used does not exceed 50 % of the ex-works price of the product Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3812	Prepared rubber accelerators; compound plasticisers for rubber or plastics, not elsewhere specified or included; anti- oxidizing preparations and other compound stabilizers for rubber or plastics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3813	Preparations and charges for fire- extinguishers; charged fire- extinguishing grenades	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3814	Organic composite solvents and thinners, not elsewhere specified or included; prepared paint or varnish removers	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3818	Chemical elements doped for use in electronics, in the form of discs, wafers or similar forms; chemical compounds doped for use in electronics	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3819	Hydraulic brake fluids and other prepared liquids for hydraulic transmission, not containing or containing less than 70 % by weight of petroleum oils or oils obtained from bituminous minerals	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	

(1)	(2)		or (4)
3820	Anti-freezing preparations and prepared de-icing fluids	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3822	Diagnostic or laboratory reagents on a backing, prepared diagnostic or laboratory reagents whether or not on a backing, other than those of heading 3002 or 3006; certified reference materials	Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product	
3823	Industrial monocarboxylic fatty acids; acid oils from refining, industrial fatty alcohols: - Industrial monocarboxylic fatty acids, acid oils from refining - Industrial fatty alcohols	Manufacture from materials of any heading, except that of the product Manufacture from materials of any heading, including other materials of heading 3823	
3824	Prepared binders for foundry moulds or cores; chemical products and preparations of the chemical or allied industries (including those consisting of mixtures of natural products), not elsewhere specified or included: - The following of this heading: - Prepared binders for foundry moulds or cores based on natural resinous products - Naphthenic acids, their waterinsoluble salts and their esters - Sorbitol other than that of heading 2905 - Petroleum sulphonates, excluding petroleum sulphonates of alkali metals, of ammonium or of ethanolamines; thiophenated sulphonic acids of oils obtained from bituminous minerals, and their salts - Ion exchangers - Getters for vacuum tubes - Alkaline iron oxide for the purification of gas - Ammoniacal gas liquors and spent oxide produced in coal gas purification - Sulphonaphthenic acids, their water-insoluble salts and their esters - Fusel oil and Dippel's oil - Mixtures of salts having different anions - Copying pastes with a basis of gelatin, whether or not on a paper or textile backing - Other	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
3901 to 3915	Plastics in primary forms, waste, parings and scrap, of plastic; except for headings ex 3907 and 3912 for which the rules are	of the product	

(1)	(2)	(3)	or (4)
	- Addition homopolymerisation	Manufacture in which:	Manufacture in which the value of

(1)	(2)	(3)	r (4)
	- Other	Manufacture in which:	Manufacture in which the value of
		- the value of all the materials used	all the materials used does not
		does not exceed 40 % of the ex- works price of the product, and	exceed 30 % of the ex-works price of the product
		- within the above limit, the value	of the product
		of all the materials of	
		heading 8523 used does not	
		exceed 10 % of the ex-works price	
		of the product	
8525	Transmission apparatus for radio-	Manufacture in which:	Manufacture in which the value of
	telephony, radio-telegraphy,	- the value of all the materials used	all the materials used does not
	radio-broadcasting or television,	does not exceed 40 % of the ex-	exceed 25 % of the ex-works price
	whether or not incorporating reception apparatus or sound	works price of the product, and - the value of all the non-	of the product
	recording or reproducing	originating materials used does	
	apparatus; television cameras;	not exceed the value of all the	
	still image video cameras and	originating materials used	
	other video camera recorders;		
	digital cameras		
8526	Radar apparatus, radio	Manufacture in which:	Manufacture in which the value of
	navigational aid apparatus and	- the value of all the materials used	all the materials used does not
	radio remote control apparatus	does not exceed 40 % of the ex- works price of the product, and	exceed 25 % of the ex-works price of the product
		- the value of all the non-	or the product
		originating materials used does	
		not exceed the value of all the	
		originating materials used	
8527	Reception apparatus for radio-	Manufacture in which:	Manufacture in which the value of
	telephony, radio-telegraphy or	- the value of all the materials used	all the materials used does not
	radio-broadcasting, whether or not combined, in the same	does not exceed 40 % of the ex- works price of the product, and	exceed 25 % of the ex-works price
	housing, with sound recording or	- the value of all the non-	of the product
	reproducing apparatus or a clock	originating materials used does	
	- spreamong approximation	not exceed the value of all the	
		originating materials used	
8528	Reception apparatus for	Manufacture in which:	Manufacture in which the value of
	television, whether or not	- the value of all the materials used	all the materials used does not
	incorporating radio broadcast receivers or sound or video	does not exceed 40 % of the ex- works price of the product, and	exceed 25 % of the ex-works price
	recording or reproducing	- the value of all the non-	of the product
	apparatus; video monitors and	originating materials used does	
	video projectors	not exceed the value of all the	
		originating materials used	
8529	Parts suitable for use solely or		
	principally with the apparatus of		
	headings 8525 to 8528: - Suitable for use solely or	Manufacture in which the value of	
	principally with video recording	all the materials used does not	
	or reproducing apparatus	exceed 40 % of the ex-works price	
		of the product	
	- Other	Manufacture in which:	Manufacture in which the value of
		- the value of all the materials used	all the materials used does not
		does not exceed 40 % of the ex-	exceed 25 % of the ex-works price
		works price of the product, and - the value of all the non-	of the product
		originating materials used does	
		not exceed the value of all the	
		originating materials used	
8535 and 8536	Electrical apparatus for switching	Manufacture in which:	Manufacture in which the value of
	or protecting electrical circuits, or	- the value of all the materials used	all the materials used does not
	for making connections to or in electrical circuits	does not exceed 40 % of the ex-	exceed 30 % of the ex-works price
	electrical circuits	works price of the product, and within the above limit, the value	of the product
		of all the materials of	
		heading 8538 used does not	
		exceed 10 % of the ex-works price	
	l	of the product	

(1)	(2)	(3)	C/
8537	Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading 8535 or 8536, for electric control or the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, and numerical control apparatus, other than switching apparatus of heading 8517	Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and - within the above limit, the value of all the materials of heading 8538 used does not exceed 10 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex 8541	Diodes, transistors and similar semi-conductor devices, except wafers not yet cut into chips	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8542	Electronic integrated circuits and microassemblies: - Monolithic integrated circuits	Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and - within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the exworks price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
	- Other	or The operation of diffusion (in which integrated circuits are formed on a semi-conductor substrate by the selective introduction of an appropriate dopant), whether or not assembled and/or tested in a country other than those specified in Articles 3 and 4 Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and - within the above limit, the value of all the materials of headings 8541 and 8542 used does not exceed 10 % of the exworks price of the product.	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
8544	Insulated (including enamelled or anodised) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fibre cables, made up of individually sheathed fibres, whether or not assembled with electric conductors or fitted with connectors	works price of the product Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8545	Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8546	Electrical insulators of any material	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

(1)	(2)	(3)	or (4)
(1) 8547	(2) Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating materials apart from any minor components of metal (for example, threaded sockets) incorporated during moulding solely for purposes of assembly, other than insulators of heading 8546; electrical conduit tubing and joints therefor, of base metal lined with insulating	(3) command of the value of all the materials used does not exceed 40 % of the ex-works price of the product	or (4)
8548	material Waste and scrap of primary cells, primary batteries and electric accumulators; spent primary cells, spent primary batteries and spent electric accumulators; electrical parts of machinery or apparatus, not specified or included elsewhere in this Chapter	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex Chapter 86	Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro- mechanical) traffic signalling equipment of all kinds; except for:	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
8608	Railway or tramway track fixtures and fittings; mechanical (including electromechanical) signalling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex Chapter 87	Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof; except for: Works trucks, self-propelled, not	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product Manufacture:	Manufacture in which the value of
	fitted with lifting or handling equipment, of the type used in factories, warehouses, dock areas or airports for short distance transport of goods; tractors of the type used on railway station platforms; parts of the foregoing vehicles	- from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	all the materials used does not exceed 30 % of the ex-works price of the product
8710	Tanks and other armoured fighting vehicles, motorized, whether or not fitted with weapons, and parts of such vehicles	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8711	Motorcycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars; side-cars: - With reciprocating internal combustion piston engine of a cylinder capacity: Not exceeding 50 cm ³	Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and	Manufacture in which the value of all the materials used does not exceed 20 % of the ex-works price of the product
		- the value of all the non- originating materials used does not exceed the value of all the originating materials used

	Exceeding 50 cm ³	Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex-	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price
	- Other	works price of the product, and - the value of all the non- originating materials used does not exceed the value of all the originating materials used Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex- works price of the product, and - the value of all the non- originating materials used does not exceed the value of all the	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex 8712	Bicycles without ball bearings	originating materials used Manufacture from materials of any heading, except those of heading 8714	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price
8715	Baby carriages and parts thereof	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the	of the product Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
8716	Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof	product Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
ex Chapter 88	Aircraft, spacecraft, and parts thereof; except for:	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex 8804	Rotochutes	Manufacture from materials of any heading, including other materials of heading 8804	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
8805	Aircraft launching gear; deck- arrestor or similar gear; ground flying trainers; parts of the foregoing articles	Manufacture from materials of any heading, except that of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
Chapter 89	Ships, boats and floating structures	Manufacture from materials of any heading, except that of the product. However, hulls of heading 8906 may not be used	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
ex Chapter 90	Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; parts and accessories thereof; except for:	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9001	Optical fibres and optical fibre bundles; optical fibre cables other than those of heading 8544; sheets and plates of polarizing material; lenses (including contact lenses), prisms, mirrors and other optical elements, of any material, unmounted, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9002	Lenses, prisms, mirrors and other optical elements, of any material, mounted, being parts of or fittings for instruments or apparatus, other than such elements of glass not optically worked	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

(1)	(2)	()	or (4)
9004	Spectacles, goggles and the like,	Manufacture in which the value of	
	corrective, protective or other	all the materials used does not	
		exceed 40% of the ex-works price	
ex 9005	Binoculars, monoculars, other	of the product Manufacture:	Manufacture in which the value of
CX 7003	optical telescopes, and mountings	- from materials of any heading,	all the materials used does not
	therefor, except for astronomical	except that of the product,	exceed 30 % of the ex-works price
	refracting telescopes and	- in which the value of all the	of the product
	mountings therefor	materials used does not exceed	
		40 % of the ex-works price of the	
		product; and	
		- in which the value of all the non- originating materials used does	
		not exceed the value of all the	
		originating materials used	
ex 9006	Photographic (other than	Manufacture:	Manufacture in which the value of
	cinematographic) cameras;	- from materials of any heading,	all the materials used does not
	photographic flashlight apparatus	except that of the product,	exceed 30 % of the ex-works price
	and flashbulbs other than	- in which the value of all the	of the product
	electrically ignited flashbulbs	materials used does not exceed	
		40 % of the ex-works price of the product, and	
		- in which the value of all the non-	
		originating materials used does	
		not exceed the value of all the	
		originating materials used	
9007	Cinematographic cameras and	Manufacture:	Manufacture in which the value of
	projectors, whether or not	- from materials of any heading,	all the materials used does not
	incorporating sound recording or reproducing apparatus	except that of the product, - in which the value of all the	exceed 30 % of the ex-works price of the product
	reproducing apparatus	materials used does not exceed	of the product
		40 % of the ex-works price of the	
		product, and	
		- in which the value of all the non-	
		originating materials used does	
		not exceed the value of all the originating materials used	
9011	Compound optical microscopes,	Manufacture:	Manufacture in which the value of
7011	including those for	- from materials of any heading,	all the materials used does not
	photomicrography,	except that of the product,	exceed 30 % of the ex-works price
	cinephotomicrography or	- in which the value of all the	of the product
	microprojection	materials used does not exceed	
		40 % of the ex-works price of the	
		product, and in which the value of all the non-	
		originating materials used does	
		not exceed the value of all the	
		originating materials used	
ex 9014	Other navigational instruments	Manufacture in which the value of	
	and appliances	all the materials used does not	
		exceed 40 % of the ex-works price	
9015	Summaring (in aludina	of the product Manufacture in which the value of	
9013	Surveying (including photogrammetrical surveying),	all the materials used does not	
	hydrographic, oceanographic,	exceed 40 % of the ex-works price	
	hydrological, meteorological or	of the product	
	geophysical instruments and	_	
	appliances, excluding compasses;		
	rangefinders		
9016	Balances of a sensitivity of 5 cg	Manufacture in which the value of	
	or better, with or without weights	all the materials used does not exceed 40 % of the ex-works price	
		of the product	
9017	Drawing, marking-out or	Manufacture in which the value of	
	mathematical calculating	all the materials used does not	
	instruments (for example,	exceed 40 % of the ex-works price	
	drafting machines, pantographs,	of the product	
	protractors, drawing sets, slide		
	rules, disc calculators);		
	instruments for measuring length,		
	for use in the hand (for example		
	for use in the hand (for example, measuring rods and tapes		
	measuring rods and tapes,

9018	Instruments and appliances used in medical, surgical, dental or veterinary sciences, including		, ,
	scintigraphic apparatus, other electro-medical apparatus and sight-testing instruments:		
	Dentists' chairs incorporating dental appliances or dentists' spittoons	Manufacture from materials of any heading, including other materials of heading 9018	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price
	- Other	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	of the product Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
9019	Mechano-therapy appliances; massage apparatus; psychological aptitude-testing apparatus; ozone therapy, oxygen therapy, aerosol therapy, artificial respiration or other therapeutic respiration apparatus	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
9020	Other breathing appliances and gas masks, excluding protective masks having neither mechanical parts nor replaceable filters	Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 25 % of the ex-works price of the product
9024	Machines and appliances for testing the hardness, strength, compressibility, elasticity or other mechanical properties of materials (for example, metals, wood, textiles, paper, plastics)	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9025	Hydrometers and similar floating instruments, thermometers, pyrometers, barometers, hygrometers and psychrometers, recording or not, and any combination of these instruments	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9026	Instruments and apparatus for measuring or checking the flow, level, pressure or other variables of liquids or gases (for example, flow meters, level gauges, manometers, heat meters), excluding instruments and apparatus of heading 9014, 9015, 9028 or 9032	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9027	Instruments and apparatus for physical or chemical analysis (for example, polarimeters, refractometers, spectrometers, gas or smoke analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light (including exposure	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9028	meters); microtomes Gas, liquid or electricity supply or production meters, including calibrating meters therefor: - Parts and accessories	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	

(1)	(2)	(3)	or (4)
, ,	- Other	Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
		the value of all the non- originating materials used does not exceed the value of all the originating materials used	
9029	Revolution counters, production counters, taximeters, mileometers, pedometers and the like; speed indicators and tachometers, other than those of heading 9014 or 9015; stroboscopes	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9030	Oscilloscopes, spectrum analysers and other instruments and apparatus for measuring or checking electrical quantities, excluding meters of heading 9028; instruments and apparatus for measuring or detecting alpha, beta, gamma, X-ray, cosmic or other ionizing	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9031	radiations Measuring or checking instruments, appliances and machines, not specified or included elsewhere in this chapter; profile projectors	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9032	Automatic regulating or controlling instruments and apparatus	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
9033	Parts and accessories (not specified or included elsewhere in this chapter) for machines, appliances, instruments or apparatus of Chapter 90	Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	
ex Chapter 91	Clocks and watches and parts	Manufacture in which the value of	
9105	thereof; except for: Other clocks	all the materials used does not exceed 40 % of the ex-works price of the product Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex-works price of the product, and	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9109	Clock movements, complete and assembled	- the value of all the non- originating materials used does not exceed the value of all the originating materials used Manufacture in which: - the value of all the materials used does not exceed 40 % of the ex- works price of the product, and - the value of all the non- originating materials used does	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9110	Complete watch or clock movements, unassembled or partly assembled (movement sets); incomplete watch or clock movements, assembled; rough watch or clock movements	not exceed the value of all the originating materials used Manufacture in which: - the value of all the materials used does not exceed 40 % of the exworks price of the product, and - within the above limit, the value of all the materials of heading 9114 used does not	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product
9111	Watch cases and parts thereof	exceed 10 % of the ex-works price of the product Manufacture: - from materials of any heading, except that of the product, and - in which the value of all the materials used does not exceed 40 % of the ex-works price of the product	Manufacture in which the value of all the materials used does not exceed 30 % of the ex-works price of the product

(1)	(2)	(3) 0	` /
9112	Clock cases and cases of a similar type for other goods of this	Manufacture: - from materials of any heading,	Manufacture in which the value of all the materials used does not
	chapter, and parts thereof	except that of the product, and	exceed 30 % of the ex-works price
	chapter, and parts thereof	- in which the value of all the	of the product
		materials used does not exceed	or the product
		40 % of the ex-works price of the	
		product	
9113	Watch straps, watch bands and		
	watch bracelets, and parts thereof:		
	- Of base metal, whether or not	Manufacture in which the value of all the materials used does not	
	gold- or silver-plated, or of metal clad with precious metal	exceed 40 % of the ex-works price	
	metar ciad with precious metar	of the product	
	- Other	Manufacture in which the value of	
		all the materials used does not	
		exceed 50 % of the ex-works price	
Cl. 4 02	- N	of the product	
Chapter 92	Musical instruments; parts and accessories of such articles	Manufacture in which the value of all the materials used does not	
	accessories of such articles	exceed 40 % of the ex-works price	
		of the product	
Chapter 93	Arms and ammunition; parts and	Manufacture in which the value of	
-	accessories thereof	all the materials used does not	
		exceed 50 % of the ex-works price	
at	1	of the product	
ex Chapter 94	Furniture; bedding, mattresses,	Manufacture from materials of any	Manufacture in which the value of all the materials used does not
	mattress supports, cushions and similar stuffed furnishings; lamps	heading, except that of the product	exceed 40 % of the ex-works price
	and lighting fittings, not		of the product
	elsewhere specified or included;		r
	illuminated signs, illuminated		
	name-plates and the like;		
	prefabricated buildings; except		
ex 9401 and	for: Base metal furniture,	Manufacture from materials of any	Manufacture in which the value of
ex 9403	incorporating unstuffed cotton	heading, except that of the product	all the materials used does not
	cloth of a weight of 300 g/m ² or	or	exceed 40 % of the ex-works price
	less	Manufacture from cotton cloth	of the product
		already made up in a form ready for	
		use with materials of heading 9401	
		or 9403, provided that: - the value of the cloth does not	
		exceed 25 % of the ex-works price	
		of the product, and	
		- all the other materials used are	
		originating and are classified in a	
		heading other than heading 9401	
0.405	I amount of the Carine	or 9403	
9405	Lamps and lighting fittings including searchlights and	Manufacture in which the value of all the materials used does not	
	spotlights and parts thereof, not	exceed 50 % of the ex-works price	
	elsewhere specified or included;	of the product	
	illuminated signs, illuminated		
	name-plates and the like, having a		
	permanently fixed light source,		
	and parts thereof not elsewhere specified or included		
9406	Prefabricated buildings	Manufacture in which the value of	
	- Total Total outlaings	all the materials used does not	
		exceed 50 % of the ex-works price	
		of the product	
ex Chapter 95	Toys, games and sports	Manufacture from materials of any	
	requisites; parts and accessories thereof; except for:	heading, except that of the product	
9503	Other toys; reduced-size ("scale")	Manufacture:	
	models and similar recreational	- from materials of any heading,	
	models, working or not; puzzles	except that of the product, and	
	of all kinds	- in which the value of all the	
		materials used does not exceed	
		50 % of the ex-works price of the	
		product Manufacture from materials of any

ANNEX III A to Protocol B

Specimens of movement certificate EUR 1 and application for a movement Certificate EUR 1

Printing instructions

- 1. Each form shall measure 210 x 297 mm; a tolerance of up to minus 5 mm or plus 8 mm in the length may be allowed. The paper used must be white, sized for writing, not containing mechanical pulp and weighing not less than 25 g/m^2 . It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.
- 2. The competent authorities of an EFTA State and of Morocco may reserve the right to print the forms themselves or may have them printed by approved printers. In the latter case, each form must include a reference to such approval. Each form must bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, either printed or not, by which it can be identified.

ANNEX IV A TO PROTOCOL B

Text of the invoice declaration

The invoice declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

English version

The exporter of the products covered by this document (customs authorization No ... (¹)) declares that, except where otherwise clearly indicated, these products are of ... preferential origin (²).

German version

Der Ausführer (Ermächtigter Ausführer; Bewilligungs-Nr. ... (¹)) der Waren, auf die sich dieses Handelspapier bezieht, erklärt, dass diese Waren, soweit nicht anderes angegeben, präferenzbegünstigte ... Ursprungswaren sind (²).

French version

L'exportateur des produits couverts par le présent document (autorisation douanière n° ... (¹)) déclare que, sauf indication claire du contraire, ces produits ont l'origine préférentielle ... (²).

Italian version

L'esportatore delle merci contemplate nel presente documento (autorizzazione doganale n. ... (¹)) dichiara che, salvo indicazione contraria, le merci sono di origine preferenziale ... (²).

Icelandic Version

Útflytjandi framleiðsluvara sem skjal þetta tekur til (leyfi tollyfirvalda nr. ... (1)), lýsir því yfir að vörurnar séu, ef annars er ekki greinilega getið, af ... fríðindauppruna (2).

Norwegian Version

Eksportøren av produktene omfattet av dette dokument (tollmyndighetenes autorisasjonsnr. ... (¹)) erklærer at disse produktene, unntatt hvor annet er tydelig angitt, har ... preferanseopprinnelse (²).

Arabic Version

يصرح مصدر المنتجات التي تشملها هذه الوثيقة (التصريح الجمركي رقم(1)) باستثناء ما ينص بوضوح على خلاف ذلك، بأن هذه المنتجات من
منشأ تفضيلي من(2).
(Place and date)

When the invoice declaration is made out by an approved exporter within the meaning of Article 23 of the Protocol, the authorization number of the approved exporter must be entered in this space. When the invoice declaration is not made out by an approved exporter, the words in brackets shall be omitted or the space left blank.

² Origin of products to be indicated.

These indications may be omitted if the information is contained on the document itself.

See Article 22(7) of the Protocol. In cases where the exporter is not required to sign, the exemption of signature also implies the exemption of the name of the signatory.

ANNEX IV B TO PROTOCOL B

Text of the invoice declaration EUR-MED

The invoice declaration EUR-MED, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.
