LIST OF ANNEXES

Annex I: Introductory notes to the list in Annex II

Annex II: List of working or processing required to be carried out on non-originating materials in order for the product manufactured to obtain originating status

Annex IIIa: Specimens of movement certificate EUR.1 and application for a movement certificate EUR.1

Annex IIIb: Specimens of movement certificate EUR-MED and application for a movement certificate EUR-MED

Annex IVa: Text of the origin declaration

Annex IVb: Text of the origin declaration EUR-MED

Annex V: Specimen of the supplier’s declaration

Annex VI: Specimen of the long-term supplier’s declaration

JOINT DECLARATIONS

Joint declaration concerning the acceptance of proofs of origin issued within the framework of the agreements referred to in Article 3 of Protocol 4 for products originating in the European Union, Iceland or Norway

Joint declaration concerning the Principality of Andorra

Joint declaration concerning the Republic of San Marino

Joint declaration concerning the withdrawal of a Contracting Party from the Regional Convention on pan-Euro-Mediterranean preferential rules of origin
TITLE I
GENERAL PROVISIONS

Article 1
Definitions

For the purposes of this Protocol:

(a) “manufacture” means any kind of working or processing including assembly or specific operations;
(b) “material” means any ingredient, raw material, component or part, etc., used in the manufacture of the product;
(c) “product” means the product being manufactured, even if it is intended for later use in another manufacturing operation;
(d) “goods” means both materials and products,
(e) “customs value” means the value as determined in accordance with the 1994 Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade (WTO Agreement on customs valuation);
(f) “ex-works price” means the price paid for the product ex works to the manufacturer in the EEA in whose undertaking the last working or processing is carried out, provided the price includes the value of all the materials used, minus any internal taxes which are, or may be, repaid when the product obtained is exported;
(g) “value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA;
(h) “value of originating materials” means the value of such materials as defined in (g) applied mutatis mutandis;
(i) “value added” shall be taken to be the ex-works price minus the customs value of each of the materials incorporated which originate in the other countries referred to in Article 3 with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the EEA;
(j) “chapters” and “headings” mean the chapters and the headings (four-digit codes) used in the nomenclature which makes up the Harmonised Commodity Description and Coding System, referred to in this Protocol as “the Harmonised System” or “HS”;
(k) “classified” refers to the classification of a product or material under a particular heading;
(l) “consignment” means products which are either sent simultaneously from one exporter to one consignee or covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;
(m) “territories” includes territorial waters.

TITLE II
DEFINITION OF THE CONCEPT OF “ORIGINATING PRODUCTS”

Article 2
General requirements

1. For the purpose of implementing the Agreement, the following products shall be considered as originating in the EEA:

(a) products wholly obtained in the EEA within the meaning of Article 4;
(b) products obtained in the EEA incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the EEA within the meaning of Article 5.

For this purpose, the territories of the Contracting Parties to which the Agreement applies, shall be considered as a single territory.

2. Notwithstanding paragraph 1, the territory of the Principality of Liechtenstein shall be excluded from that of the EEA, for the purpose of determining the origin of the products referred to in Tables I and II of Protocol 3 and such products shall be considered to be originating in the EEA only if they have been either wholly obtained or sufficiently worked or processed in the territories of the other Contracting Parties.

Article 3

Diagonal cumulation of origin

1. Without prejudice to the provisions of Article 2, products shall be considered as originating in the EEA if they are obtained there, incorporating materials originating in Switzerland (including Liechtenstein)\(^2\), Iceland, Norway, the Faroe Islands, Turkey, the European Union or in any participant in the European Union’s Stabilisation and Association Process\(^3\), provided that the working or processing carried out in the EEA goes beyond the operations referred to in Article 6. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to the provisions of Article 2, products shall be considered as originating in the EEA if they are obtained there, incorporating materials originating in any country which is a participant in the Euro-Mediterranean partnership, based on the Barcelona Declaration adopted at the Euro-Mediterranean Conference held on 27 and 28 November 1995, other than Turkey\(^4\), provided that the working or processing carried out in the EEA goes beyond the operations referred to in Article 6. It shall not be necessary for such materials to have undergone sufficient working or processing.

3. Where the working or processing carried out in the EEA does not go beyond the operations referred to in Article 6, the product obtained shall be considered as originating in the EEA only where the value added there is greater than the value of the materials used originating in any one of the countries referred to in paragraphs 1 and 2. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in the EEA.

4. Products, originating in one of the countries referred to in paragraphs 1 and 2, which do not undergo any working or processing in the EEA shall retain their origin if exported into one of these countries.

5. The cumulation provided for in this Article may be applied only provided that:

(a) a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade (GATT) is applicable between the countries involved in the acquisition of the originating status and the country of destination;

(b) materials and products have acquired originating status by the application of rules of origin identical to those given in this Protocol;

and

(c) notices indicating the fulfilment of the necessary requirements to apply cumulation have been published in the Official Journal of the European Union (C series) and in the other Contracting Parties according to their own procedures.

The cumulation provided for in this Article shall apply from the date indicated in the notice published in the Official Journal of the European Union (C series).

The European Union shall provide the other Contracting Parties, through the European Commission, with details of the Agreements, including their dates of entry into force, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1 and 2.

\(^2\) The Principality of Liechtenstein has a customs union with Switzerland, and is a Contracting Party to the Agreement of the European Economic Area.

\(^3\) Albania, Bosnia and Herzegovina, the former Yugoslav Republic of Macedonia, Montenegro, Serbia and Kosovo under UNSC Resolution 1244/99.

\(^4\) Algeria, Egypt, Israel, Jordan, Lebanon, Morocco, Syria, Tunisia, Palestine (*This designation shall not be construed as recognition of a State of Palestine and is without prejudice to the individual positions of the Member States on this issue).
Article 4

Wholly obtained products

1. The following shall be considered as wholly obtained in the EEA:
   
   (a) mineral products extracted from their soil or from their seabed;
   
   (b) vegetable products harvested there;
   
   (c) live animals born and raised there;
   
   (d) products from live animals raised there;
   
   (e) products obtained by hunting or fishing conducted there;
   
   (f) products of sea fishing and other products taken from the sea outside the territorial waters of the Contracting Parties by their vessels;
   
   (g) products made aboard their factory ships exclusively from products referred to in (f);
   
   (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;
   
   (i) waste and scrap resulting from manufacturing operations conducted there;
   
   (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil;
   
   (k) goods produced there exclusively from the products specified in (a) to (j).

2. The terms “their vessels” and “their factory ships” in paragraph 1(f) and (g) shall apply only to vessels and factory ships:
   
   (a) which are registered or recorded in a Member State of the European Union or in an EFTA State;
   
   (b) which sail under the flag of a Member State of the European Union or of an EFTA State;
   
   (c) which are owned to an extent of at least 50% by nationals of a Member State of the European Union or of an EFTA State, or by a company with its head office in one of these States, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of a Member State of the European Union or of an EFTA State and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those States or to public bodies or nationals of the said States;
   
   (d) of which the master and officers are nationals of a Member State of the European Union or of an EFTA State;

   and

   (e) of which at least 75% of the crew are nationals of a Member State of the European Union or of an EFTA State.

Article 5

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained shall considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

   The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list
in Annex II, should not be used in the manufacture of a product may nevertheless be used, provided that:

(a) their total value does not exceed 10 % of the ex-works price of the product;

(b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded by virtue of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System.

3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 6.

Article 6

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 5 are satisfied:

(a) preserving operations to ensure that the products remain in good condition during transport and storage;

(b) breaking-up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(d) ironing or pressing of textiles;

(e) simple painting and polishing operations;

(f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;

(g) operations to colour sugar or form sugar lumps;

(h) peeling, stoning and shelling, of fruits, nuts and vegetables;

(i) sharpening, simple grinding or simple cutting;

(j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);

(k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

(m) simple mixing of products, whether or not of different kinds;

(n) mixing of sugar with any material;

(o) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

(p) a combination of two or more operations specified in (a) to (o);

(q) slaughter of animals.

2. All operations carried out in the EEA on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

Article 7

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product
which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

It follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

**Article 8**

**Accessories, spare parts and tools**

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

**Article 9**

**Sets**

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

**Article 10**

**Neutral elements**

In order to determine whether a product is an originating product, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools;

(d) goods which neither enter into the final composition of the product nor are intended to do so.

**TITLE III**

**TERRITORIAL REQUIREMENTS**

**Article 11**

**Principle of territoriality**
1. Except as provided for in Article 3 and paragraph 3 of this Article, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the EEA.

2. Except as provided for in Article 3, where originating goods exported from the EEA to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

   (a) the returning goods are the same as those exported;

   and

   (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the EEA on materials exported from the EEA and subsequently reimported there, provided:

   (a) the said materials are wholly obtained in the EEA or have undergone working or processing beyond the operations referred to in Article 6 prior to being exported;

   and

   (b) it can be demonstrated to the satisfaction of the customs authorities that:

      (i) the reimported goods have been obtained by working or processing the exported materials;

      and

      (ii) the total added value acquired outside the EEA by applying the provisions of this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the EEA. However, where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the EEA by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside the EEA, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 5(2) is applied.

7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.

8. Any working or processing of the kind covered by this Article and done outside the EEA shall be done under the outward processing arrangements, or similar arrangements.

---

**Article 12**

**Direct transport**

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly within the EEA or through the territories of the countries referred to in Article 3 with which cumulation is applicable. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of
the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the EEA.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

(a) a single transport document covering the passage from the exporting country through the country of transit; or

(b) a certificate issued by the customs authorities of the country of transit:

(i) giving an exact description of the products;

(ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;

and

(iii) certifying the conditions under which the products remained in the transit country; or

(c) failing these, any substantiating documents.

**Article 13**

**Exhibitions**

1. Originating products, sent for exhibition in a country other than those referred to in Article 3 with which cumulation is applicable and sold after the exhibition for importation in the EEA shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

(a) an exporter has consigned these products from one of the Contracting Parties to the country in which the exhibition is held and has exhibited them there;

(b) the products have been sold or otherwise disposed of by that exporter to a person in another Contracting Party;

(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition;

and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the products have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

**TITLE IV**

**DRAWBACK OR EXEMPTION**

**Article 14**

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in the EEA or in one of the
countries referred to in Article 3 for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in any of the Contracting Parties to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in any of the Contracting Parties to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 7(2), accessories, spare parts and tools within the meaning of Article 8 and products in a set within the meaning of Article 9 when such items are non-originating.

5. The provisions of paragraphs 1 to 4 shall apply only in respect of materials which are of the kind to which the Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of the Agreement.

TITLE V

PROOF OF ORIGIN

Article 15

General requirements

1. Originating products shall, on importation into one of the Contracting Parties, benefit from the provisions of the Agreement upon submission of one of the following proofs of origin:

(a) a movement certificate EUR.1, a specimen of which appears in Annex IIIa;
(b) a movement certificate EUR-MED, a specimen of which appears in Annex IIIb;
(c) in the cases specified in Article 21(1), a declaration, subsequently referred to as the “origin declaration” or the “origin declaration EUR-MED”, given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the texts of the origin declarations appear in Annexes IVa and b.

2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 26, benefit from the provisions of the Agreement without it being necessary to submit any of the proofs of origin referred to in paragraph 1.

Article 16

Procedure for the issue of a movement certificate EUR.1 or EUR-MED

1. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill in both the movement certificate EUR.1 or EUR-MED and the application form, specimens of which appear in the Annexes IIIa and b. These forms shall be completed in one of the languages in which the Agreement is drawn up and in accordance with the provisions of the national law of the exporting country. If the forms are handwritten, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement
certificate EUR.1 or EUR-MED is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. Without prejudice to paragraph 5, a movement certificate EUR.1 shall be issued by the customs authorities of a Contracting Party in the following cases:

- if the products concerned can be considered as products originating in the EEA or in one of the countries referred to in Article 3(1) with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Article 3(2), and fulfil the other requirements of this Protocol,

- if the products concerned can be considered as products originating in one of the countries referred to in Article 3(2) with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol, provided a certificate EUR-MED or an origin declaration EUR-MED has been issued in the country of origin.

5. A movement certificate EUR-MED shall be issued by the customs authorities of a Contracting Party, if the products concerned can be considered as products originating in the EEA or in one of the countries referred to in Article 3 with which cumulation is applicable, fulfil the requirements of this Protocol and:

- cumulation was applied with materials originating in one of the countries referred to in Article 3(2), or

- the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the countries referred to in Article 3(2), or

- the products may be re-exported from the country of destination to one of the countries referred to in Article 3(2).

6. A movement certificate EUR-MED shall contain one of the following statements in English in box 7:

- if origin has been obtained by application of cumulation with materials originating in one or more of the countries referred to in Article 3:

  “CUMULATION APPLIED WITH ………” (name of the country/countries)

- if origin has been obtained without the application of cumulation with materials originating in one or more of the countries referred to in Article 3:

  “NO CUMULATION APPLIED”

7. The customs authorities issuing movement certificates EUR.1 or EUR-MED shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter’s accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

8. The date of issue of the movement certificate EUR.1 or EUR-MED shall be indicated in Box 11 of the certificate.

9. A movement certificate EUR.1 or EUR-MED shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 17

Movement certificates EUR.1 or EUR-MED issued retrospectively

1. Notwithstanding Article 16(9), a movement certificate EUR.1 or EUR-MED may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances;

or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 or EUR-MED was issued but was not accepted at importation for technical reasons.
2. Notwithstanding Article 16(9), a movement certificate EUR-MED may be issued after exportation of the products to which it relates and for which a movement certificate EUR.1 was issued at the time of exportation, provided that it is demonstrated to the satisfaction of the customs authorities that the conditions referred to in Article 16(5) are satisfied.

3. For the implementation of paragraphs 1 and 2, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 or EUR-MED relates, and state the reasons for his request.

4. The customs authorities may issue a movement certificate EUR.1 or EUR-MED retrospectively only after verifying that the information supplied in the exporter's application complies with that in the corresponding file.

5. Movement certificates EUR.1 or EUR-MED issued retrospectively shall be endorsed with the following phrase in English:

   "ISSUED RETROSPECTIVELY"

Movement certificates EUR-MED issued retrospectively by application of paragraph 2 shall be endorsed with the following phrase in English:

   ISSUED RETROSPECTIVELY (Original EUR.1 No ……… (date and place of issue)

6. The endorsement referred to in paragraph 5 shall be inserted in box 7 of the movement certificate EUR.1 or EUR-MED.

Article 18

Issue of a duplicate movement certificate EUR.1 or EUR-MED

1. In the event of theft, loss or destruction of a movement certificate EUR.1 or EUR-MED, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way shall be endorsed with the following word in English:

   "DUPLICATE"

3. The endorsement referred to in paragraph 2 shall be inserted in box 7 of the duplicate movement certificate EUR.1 or EUR-MED.

4. The duplicate, which shall bear the date of issue of the original movement certificate EUR.1 or EUR-MED, shall take effect as from that date.

Article 19

Issue of movement certificates EUR.1 or EUR-MED on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in the Contracting Parties, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 or EUR-MED for the purpose of sending all or some of these products elsewhere within the EEA. The replacement movement certificate(s) EUR.1 or EUR-MED shall be issued by the customs office under whose control the products are placed.

Article 20

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, the customs authorities may, at the written request of those concerned, authorise the so-called "accounting segregation" method (hereinafter referred to as the "method") to be used for managing such stocks.

2. The method must be able to ensure that, for a specific reference period, the number of products obtained which could be considered as "originating" is the same as that which would have been obtained had there been physical segregation of the stocks.
3. The customs authorities may make the grant of authorisation referred to in paragraph 1, subject to any conditions deemed appropriate.

4. The method shall be applied and on the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.

5. The beneficiary of the method may make out or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The customs authorities shall monitor the use made of the authorisation and may withdraw it whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

**Article 21**

**Conditions for making out an origin declaration or an origin declaration EUR-MED**

1. An origin declaration or an origin declaration EUR-MED as referred to in Article 15(1)(c) may be made out:

   (a) by an approved exporter within the meaning of Article 22;

   or

   (b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6000.

2. Without prejudice to paragraph 3, an origin declaration may be made out in the following cases:

   - if the products concerned may be considered as products originating in the EEA or in one of the countries referred to in Article 3(1) with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Article 3(2), and fulfil the other requirements of this Protocol;

   - if the products concerned may be considered as products originating in one of the countries referred to in Article 3(2) with which cumulation is applicable, without application of cumulation with materials originating in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol, provided a certificate EUR-MED or an origin declaration EUR-MED has been issued in the country of origin.

3. An origin declaration EUR-MED may be made out if the products concerned may be considered as products originating in the EEA or in one of the countries referred to in Article 3 with which cumulation is applicable, fulfil the requirements of this Protocol and:

   - cumulation was applied with materials originating in one of the countries referred to in Article 3(2), or

   - the products may be used as materials in the context of cumulation for the manufacture of products for export to one of the countries referred to in Article 3(2), or

   - the products may be re-exported from the country of destination to one of the countries referred to in Article 3(2).

4. An origin declaration EUR-MED shall contain one of the following statements in English:

   - if origin has been obtained by application of cumulation with materials originating in one or more of the countries referred to in Article 3:

     “CUMULATION APPLIED WITH ………” (name of the country/countries)

   - if origin has been obtained without application of cumulation with materials originating in one or more of the countries referred to in Article 3:

     “NO CUMULATION APPLIED”.

5. The exporter making out an origin declaration or an origin declaration EUR-MED shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

6. An origin declaration or an origin declaration EUR-MED shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the texts of which appear in Annexes IVA and b, using one of the linguistic versions set out in these Annexes and in accordance with the provisions of the national law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

7. Origin declarations and origin declarations EUR-MED shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.

8. An origin declaration or an origin declaration EUR-MED may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country at the latest two years after the importation of the products to which it relates.

Article 22

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter (hereinafter referred to as "approved exporter") who makes frequent shipments of products under the Agreement to make out origin declarations or origin declarations EUR-MED irrespective of the value of the products concerned. An exporter seeking such authorisation shall offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration or on the origin declaration EUR-MED.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 23

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country and shall be submitted within the said period to the customs authorities of the importing country.

2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.
Article 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers’ personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1200 in the case of products forming part of travellers’ personal luggage.

Article 27

Supplier’s declaration

1. When a movement certificate EUR.1 is issued, or an origin declaration is made out, in one of the Contracting Parties for originating products, in the manufacture of which goods coming from other Contracting Parties which have undergone working or processing in the EEA without having obtained preferential originating status have been used, account shall be taken of the supplier’s declaration given for these goods in accordance with this Article.

2. The supplier’s declaration referred to in paragraph 1 shall serve as evidence of the working or processing undergone in the EEA by the goods concerned for the purpose of determining whether the products in the manufacture of which these goods are used, may be considered as products originating in the EEA and fulfil the other requirements of this Protocol.

3. A separate supplier’s declaration shall, except in cases provided in paragraph 4, be made out by the supplier for each consignment of goods in the form prescribed in Annex V on a sheet of paper annexed to the invoice, the delivery note or any other commercial document describing the goods concerned in sufficient detail to enable them to be identified.

4. Where a supplier regularly supplies a particular customer with goods for which the working or processing undergone in the EEA is expected to remain constant for considerable periods of time, he may provide a single supplier's declaration to cover subsequent consignments of those goods, hereinafter referred to as a “long-term supplier’s declaration”.

A long-term supplier’s declaration may normally be valid for a period of up to one year from the date of making out the declaration. The customs authorities of the country where the declaration is made out lay down the conditions under which longer periods may be used.

The long term supplier’s declaration shall be made out by the supplier in the form prescribed in Annex VI and shall describe the goods concerned in sufficient detail to enable them to be identified. It shall be provided to the customer concerned before he is supplied with the first consignment of goods covered by this declaration or together with his first consignment.

The supplier shall inform his customer immediately if the long-term supplier’s declaration is no longer applicable to the goods supplied.

5. The supplier’s declaration referred to in paragraphs 3 and 4 shall be typed or printed using one of the
languages in which the Agreement is drawn up, in accordance with the provisions of the national law of the country where it is made out, and shall bear the original signature of the supplier in manuscript. The declaration may also be hand-written; in such a case, it shall be written in ink in printed characters.

6. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

Article 28

Supporting documents

The documents referred to in Articles 16(3), 21(5) and 27(6) used for the purpose of proving that products covered by a movement certificate EUR.1 or EUR-MED or an origin declaration or origin declaration EUR-MED may be considered as products originating in the EEA or in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol and that the information given in a supplier's declaration is correct, may consist inter alia of the following:

(a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book keeping;

(b) documents proving the originating status of materials used, issued or made out in the Contracting Party where these documents are used in accordance with national law;

(c) documents proving the working or processing of materials in the EEA, issued or made out in the Contracting Party where these documents are used in accordance with national law;

(d) movement certificates EUR.1 or EUR-MED or origin declarations or origin declarations EUR-MED proving the originating status of materials used, issued or made out in the Contracting Parties in accordance with this Protocol, or in one of the countries referred to in Article 3, in accordance with rules of origin which are identical to the rules in this Protocol.

(e) supplier’s declarations proving the working or processing undergone in the EEA by materials used, made out in the Contracting Parties in accordance with this Protocol;

(f) appropriate evidence concerning working or processing undergone outside the EEA by application of Article 11, proving that the requirements of that Article have been satisfied.

Article 29

Preservation of proof of origin, supplier’s declarations and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 or EUR-MED shall keep for at least three years the documents referred to in Article 16(3).

2. The exporter making out an origin declaration or origin declaration EUR-MED shall keep for at least three years a copy of this origin declaration as well as the documents referred to in Article 21(5).

3. The supplier making out a supplier’s declaration shall keep for at least three years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 27(6).

The supplier making out a long-term supplier’s declaration shall keep for at least three years copies of the declaration and of all the invoices, delivery notes or other commercial documents concerning goods covered by that declaration sent to the customer concerned, as well as the documents referred to in Article 27(6). This period shall begin from the date of expiry of validity of the long-term supplier’s declaration.

4. The customs authorities of the exporting country issuing a movement certificate EUR.1 or EUR-MED shall keep, for at least three years, the application form referred to in Article 16(2).

5. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and EUR-MED and the origin declarations and origin declarations EUR-MED submitted to them.

Article 30

Discrepancies and formal errors
1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not \textit{ipso facto} render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

\textit{Article 31}

\textbf{Amounts expressed in euro}

1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Member States of the European Union and of the countries referred to in Article 3 equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 26(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October each year. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5 %. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15 % cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the EEA Joint Committee at the request of the Contracting Parties. When carrying out this review, the EEA Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

\textbf{TITLE VI}

\textbf{ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION}

\textit{Article 32}

\textbf{Administrative cooperation}

1. The customs authorities of the Contracting Parties shall provide each other, through the European Commission, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and EUR-MED, and with the addresses of the customs authorities responsible for verifying those certificates, origin declarations and origin declarations EUR-MED or suppliers’ declarations.

2. In order to ensure the proper application of this Protocol, the Contracting Parties shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 and EUR-MED, the origin declarations and the origin declarations EUR-MED or the suppliers’ declarations and the correctness of the information given in these documents.

\textit{Article 33}
Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 or EUR-MED and the invoice, if it has been submitted, the origin declaration or the origin declaration EUR-MED, or a copy of these documents, to the customs authorities of the exporting country, giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter’s accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in the EEA or in one of the countries referred to in Article 3 and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within 10 months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

Article 34

Verification of supplier’s declarations

1. Subsequent verifications of suppliers’ declarations or long-term suppliers’ declarations may be carried out at random or whenever the customs authorities of the country, where such declarations have been taken into account to issue a movement certificate EUR.1 or EUR-MED or to make out an origin declaration or origin declaration EUR-MED, have reasonable doubts as to the authenticity of the document or the correctness of the information given in this document.

2. For the purposes of implementing paragraph 1, the customs authorities of the country referred to in paragraph 1 shall return the supplier’s declaration and invoice(s), delivery note(s) or other commercial documents concerning goods covered by this declaration, to the customs authorities of the country where the declaration was made out, giving, where appropriate, the reasons of substance or form for the request for verification. They shall forward, in support of the request for subsequent verification, any documents and information that have been obtained suggesting that the information given in the supplier’s declaration is incorrect.

3. The verification shall be carried out by the customs authorities of the country where the supplier’s declaration was made out. For this purpose, they shall have the right to call for any evidence and carry out any inspection of the supplier’s accounts or any other check which they consider appropriate.

4. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. These results shall indicate clearly whether the information given in the supplier’s declaration is correct and make it possible for them to determine whether and to what extent this supplier’s declaration could be taken into account for issuing a movement certificate EUR.1 or EUR-MED or for making out an origin declaration or origin declaration EUR-MED.

Article 35

Dispute settlement

Where disputes arise in relation to the verification procedures of Articles 33 and 34 which cannot be settled between
the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the EEA Joint Committee. In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

**Article 36**

**Penalties**

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

**Article 37**

**Free zones**

1. The Contracting Parties shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By way of derogation from paragraph 1, when products originating in the EEA are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 or EUR-MED at the exporter’s request, if the treatment or processing undergone complies with the provisions of this Protocol.

**TITLE VII**

**CEUTA AND MELILLA**

**Article 38**

**Application of the Protocol**

1. The term “EEA” used in this protocol does not cover Ceuta and Melilla. The term “products originating in the EEA” does not cover products originating in Ceuta and Melilla.

2. For the purpose of applying Protocol 49 concerning products originating in Ceuta and Melilla, this Protocol shall apply, *mutatis mutandis*, subject to the special conditions set out in Article 39.

**Article 39**

**Special conditions**

1. Providing they have been transported directly in accordance with Article 12, the following shall be considered as:

   (1) products originating in Ceuta and Melilla:

      (a) products wholly obtained in Ceuta and Melilla;

      (b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:

         (i) the said products have undergone sufficient working or processing within the meaning of Article 5;

         or that

         (ii) those products originate in the EEA, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 6.

   (2) products originating in the EEA:
(a) products wholly obtained in the EEA;

(b) products obtained in the EEA, in the manufacture of which products other than those referred to in (a) are used, provided that:

(i) the said products have undergone sufficient working or processing within the meaning of Article 5;

or that

(ii) those products originate in Ceuta and Melilla or in the EEA, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 6.

2. Ceuta and Melilla shall be considered as a single territory.

3. The exporter or his authorised representative shall enter “EEA” and “Ceuta and Melilla” in box 2 of movement certificates EUR.1 or EUR-MED or on origin declarations or on origin declarations EUR-MED. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in box 4 of movement certificates EUR.1 or EUR-MED or on origin declarations or on the origin declarations EUR-MED.

4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

**Article 41**

Transitional arrangements regarding the accession of the Republic of Croatia to the European Union

1. Proof of origin properly issued by an EFTA State or the Republic of Croatia or made out in the framework of a preferential agreement applied between the EFTA States and the Republic of Croatia shall be considered being proof of EEA preferential origin, provided that:

(a) the proof of origin and the transport documents were issued or made out no later than the day before the date of accession of the Republic of Croatia to the European Union; and

(b) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession of the Republic of Croatia to the European Union.

Where goods were declared for importation from an EFTA State or the Republic of Croatia in, respectively, the Republic of Croatia or an EFTA State prior to the date of accession of the Republic of Croatia to the European Union, under preferential agreements applied between an EFTA State and the Republic of Croatia at that time, proof of origin issued retrospectively under those agreements may also be accepted in the EFTA States or the Republic of Croatia provided that it is submitted to the customs authorities within the period of four months from the date of accession of the Republic of Croatia to the European Union.

2. The EFTA States, on the one hand, and the Republic of Croatia, on the other hand, are authorised to retain the authorisations with which the status of ‘approved exporters’ has been granted in the framework of agreements concluded between the EFTA States, on the one hand, and the Republic of Croatia, on the other hand, provided that the approved exporters apply the rules of origin of this Protocol.

The EFTA States, on the one hand, and Croatia, on the other, shall, no later than one year after the date of accession of the Republic of Croatia to the European Union, consider the necessity of replacing such authorisations by new authorisations issued in accordance with this Protocol.

3. Requests for subsequent verification of proof of origin issued or made out under the preferential agreements referred to in paragraphs 1 and 2 shall be accepted by the competent customs authorities of the EFTA States and the Republic of Croatia for a period of three years after the issue or making out of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin submitted to those authorities in support of an import declaration.

4. The provisions of the Agreement may be applied to goods exported from either the Republic of Croatia to the EFTA States or from the EFTA States to the Republic of Croatia, which comply with the provisions of this Protocol and that on the date of accession of the Republic of Croatia to the European Union are either in transit or in temporary storage in a customs warehouse or in a free zone in an EFTA State or in the Republic

---

Article 41 inserted by Decision No 70/2015 (OJ L 129, 19.5.2016, p. 54 and EEA Supplement No 29, 19.5.2016, p. 55), e.i.f. 20.3.2015; it shall apply from 1 July 2013 until 1 January 2017.
5. Preferential treatment may be granted in cases as referred to in paragraph 4, subject to the submission to the customs authorities of the importing country, within four months from the date of accession of the Republic of Croatia to the European Union, of a proof of origin issued retrospectively by the customs authorities of the exporting country.

ANNEX I

Introductory notes to the list in Annex II

Any reference to ‘this Appendix’ in Note 1 and 3.1. of Annex I to Appendix I to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin should be read as a reference to ‘this Protocol’.
ANNEX II

List of working or processing required to be carried out on non-originating materials in order for the product manufactured to obtain originating status

ANNEX IIIA

Specimens of movement certificate EUR.1 and application for a movement certificate EUR.1

ANNEX IIIB

Specimens of movement certificate EUR-MED and application for a movement certificate EUR-MED

ANNEX IVA

Text of the origin declaration

ANNEX IVB

Text of the origin declaration EUR-MED

ANNEX V

Supplier’s declaration

The supplier’s declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

SUPPLIER’S DECLARATION

for goods which have undergone working or processing in the EEA without having obtained preferential origin status

1. the undersigned, supplier of the goods covered by the annexed document, declare that:

1. The following materials which do not originate in the EEA have been used in the EEA to produce these goods:

<table>
<thead>
<tr>
<th>Description of the goods supplied (1)</th>
<th>Description of non-originating materials used</th>
<th>Heading of non-originating materials used (2)</th>
<th>Value of non-originating materials used (2) (2)</th>
</tr>
</thead>
<tbody>
<tr>
<td>........................................</td>
<td>.................................................</td>
<td>...............................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>.................................................</td>
<td>...............................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>.................................................</td>
<td>...............................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>.................................................</td>
<td>...............................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>Total</td>
<td>........................................</td>
<td>...............................................</td>
<td>..................................................</td>
</tr>
</tbody>
</table>

2. All the other materials used in the EEA to produce these goods originate in the EEA.

3. The following goods have undergone working or processing outside the EEA in accordance with Article 11 of Protocol 4 to the Agreement and have acquired the following total added value there:

<table>
<thead>
<tr>
<th>Description of the goods supplied</th>
<th>Total added value acquired outside the EEA (1)</th>
</tr>
</thead>
<tbody>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>........................................</td>
<td>..................................................</td>
</tr>
</tbody>
</table>

(Place and date)

(Address and signature of the supplier:
In addition the name of the person signing
the declaration must be indicated in clear script)
(1) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

   Example:

   The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of these motors differ from one model to another. The models must therefore be differentiated in the first column and the indications in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which model of electrical motor he uses.

(2) The indications requested in these columns should only be given if they are necessary.

   Examples:

   The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacturer of such garments in France uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the Norwegian supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn. A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column "bars of iron". Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of non-originating bars.

(3) "Value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(4) "Total added value" shall mean all costs accumulated outside the EEA, including the value of all materials added there. The exact total added value acquired outside the EEA must be given per unit of the goods specified in the first column.
ANNEX VI

Long-term supplier's declaration

The long-term supplier's declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

LONG-TERM SUPPLIER’S DECLARATION

for goods which have undergone working or processing in the EEA without having obtained preferential originating status

I. the undersigned, supplier of the goods covered by this document, which are regularly supplied to ……………. (1) declare that:

1. The following materials which do not originate in the EEA have been used in the EEA to produce these goods:

<table>
<thead>
<tr>
<th>Description of the goods supplied (2)</th>
<th>Description of non-originating materials used</th>
<th>Heading of non-originating materials used (3)</th>
<th>Value of non-originating materials used (7) (4)</th>
</tr>
</thead>
<tbody>
<tr>
<td>...........................................</td>
<td>..................................................</td>
<td>..................................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>...........................................</td>
<td>..................................................</td>
<td>..................................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>...........................................</td>
<td>..................................................</td>
<td>..................................................</td>
<td>..................................................</td>
</tr>
<tr>
<td>Total ...................................</td>
<td>..................................................</td>
<td>..................................................</td>
<td>..................................................</td>
</tr>
</tbody>
</table>

2. All the other materials used in the EEA to produce these goods originate in the EEA;

3. The following goods have undergone working or processing outside the EEA in accordance with Article 11 of Protocol 4 to the Agreement and have acquired the following total added value there:

<table>
<thead>
<tr>
<th>Description of the goods supplied</th>
<th>Total added value acquired outside the EEA (5)</th>
</tr>
</thead>

(1) Footnote: 
(2) Footnote: 
(3) Footnote: 
(4) Footnote: 
(5) Footnote: 
(6) Footnote: 
(7) Footnote:
This declaration is valid for all subsequent consignments of these goods dispatched
from ..............................................................................................................
to ...................................................................................................................... (6)
I undertake to inform .............................................................. (7) immediately if this declaration is no longer valid.

(Place and date)

(Address and signature of the supplier;
in addition the name of the person signing
the declaration must be indicated in clear script)

(1) Name and address of the customer.

(2) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

Example:
The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of these motors differ from one model to another. The models must therefore be differentiated in the first column and the indications in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which model of electrical motor he uses.

(3) The indications requested in these columns should only be given if they are necessary.

Examples:
The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacturer of such garments in France uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the European Union supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column 'bars of iron'. Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of non-originating bars.

(4) "Value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(5) "Total added value" shall mean all costs accumulated outside the EEA, including the value of all materials added there. The exact total added value acquired outside the EEA must be given per unit of the goods specified in the first column.

(6) Insert dates. The period of validity of the long term supplier’s declaration should not normally exceed 12 months, subject to the conditions laid down by the customs authorities of the country where the long term supplier’s declaration is made out.
JOINT DECLARATION

concerning the acceptance of proofs of origin issued within the framework of the agreements referred to in Article 3 of Protocol 4 for products originating in the European Union, Iceland or Norway

1. Proofs of origin issued within the framework of the agreements referred to in Article 3 of Protocol 4 for products originating in the European Union, Iceland or Norway shall be accepted for the purpose of granting preferential tariff treatment provided for by the EEA Agreement.

2. Such products shall be considered as materials originating in the EEA when incorporated into a product obtained there. It shall not be necessary for such materials to have undergone sufficient working or processing.

3. Furthermore, in so far as such products are covered by the EEA Agreement they shall be considered as originating in the EEA when re-exported to another EEA Contracting Party.

JOINT DECLARATION

concerning the Principality of Andorra

1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonised System shall be accepted by Iceland, Liechtenstein and Norway as originating in the European Union within the meaning of the Agreement.

2. Protocol 4 shall apply, mutatis mutandis, for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION

concerning the Republic of San Marino

1. Products originating in the Republic of San Marino shall be accepted by Iceland, Liechtenstein and Norway as originating in the European Union within the meaning of the Agreement.

2. Protocol 4 shall apply, mutatis mutandis for the purpose of defining the originating status of the abovementioned products.

JOINT DECLARATION

concerning the withdrawal of a Contracting Party from the Regional Convention on pan-Euro-Mediterranean preferential rules of origin

1. Should a Contracting Party to the EEA give notice in writing to the depositary of the Regional Convention on pan-Euro-Mediterranean preferential rules of origin of their intention to withdraw from the Convention according to its Article 9, the withdrawing Contracting Party shall immediately enter into negotiations on rules of origin with all other EEA Contracting Parties for the purpose of implementing this Agreement.

2. Until the entry into force of such newly negotiated rules of origin, the rules of origin contained in Appendix I and, where appropriate, the relevant provisions of Appendix II to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin, applicable at the moment of withdrawal, shall apply mutatis mutandis between the withdrawing Contracting Party and the other EEA Contracting Parties. However, as of the moment of withdrawal, the rules of origin contained in Appendix I and, where appropriate, the relevant provisions of Appendix II to the Convention shall be construed so as to allow bilateral cumulation between the withdrawing Contracting Party and the other EEA Contracting Parties only.
APPENDIX A(*)

ALTERNATIVE APPLICABLE RULES OF ORIGIN

Rules for optional application among Contracting Parties to the Regional Convention on pan-Euro-Mediterranean preferential rules of origin ("the PEM Convention"), pending the conclusion and entry into force of the amendment of the PEM Convention ("the Rules" or "the Transitional rules")

TITLE I

GENERAL PROVISIONS

Article 1

Definitions

For the purposes of these Rules:

(a) “applying Contracting Party” means a Contracting Party to the PEM Convention that incorporates these Rules in its bilateral preferential trade agreements with another Contracting Party to the PEM Convention and includes the Contracting Parties to the EEA Agreement;

(b) “chapters”, “headings” and “subheadings” mean the chapters, the headings and the subheadings (four- or six-digit codes) used in the nomenclature which makes up the Harmonized Commodity Description and Coding System (“Harmonised System”) with the changes pursuant to the Recommendation of 26 June 2004 of the Customs Cooperation Council;

(c) “classified” means the classification of a good under a particular heading or subheading of the Harmonised System;

(d) “consignment” means products which are either:

(i) sent simultaneously from one exporter to one consignee; or

(ii) covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;

(e) “customs authorities of the Party or applying Contracting Party” for the European Union means any of the customs authorities of the Member States of the European Union;

(f) “customs value” means the value as determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade 1994 (WTO Agreement on Customs Valuation);

(g) “ex-works price” means the price paid for the product ex works to the manufacturer in the EEA in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported. Where the last working or processing has been subcontracted to a manufacturer, the term “manufacturer” refers to the enterprise that has employed the subcontractor.

Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the EEA, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported;

(h) “fungible material” or “fungible product” means material or product that is of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another;
(i) “goods” means both material and product;

(j) “manufacture” means any kind of working or processing, including assembly;

(k) “material” means any ingredient, raw material, component or part, etc., used in the manufacture of the product;

(l) “maximum content of non-originating materials” means the maximum content of non-originating materials which is permitted in order to consider a manufacture to be working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of these materials used falling under a specified group of chapters, chapter, heading or subheading;

(m) “product” means the product being manufactured, even if it is intended for later use in another manufacturing operation;

(n) “territory” includes the land territory, internal waters and the territorial sea of the Contracting Parties to the EEA Agreement to which the EEA Agreement applies;

(o) “value added” shall be taken to be the ex-works price of the product minus the customs value of each of the materials incorporated which originate in the other applying Contracting Parties with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the EEA;

(p) “value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA. Where the value of the originating materials used needs to be established, this point shall be applied mutatis mutandis.
TITLE II
DEFINITION OF THE CONCEPT
OF "ORIGINATING PRODUCTS"

Article 2

General requirements

1. For the purpose of implementing the EEA Agreement, the following products shall be considered as originating in the EEA:

   (a) products wholly obtained in the EEA within the meaning of Article 3;
   (b) products obtained in the EEA incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in the EEA within the meaning of Article 4.

For this purpose, the territories of the Contracting Parties to the EEA Agreement to which the Agreement applies shall be considered as a single territory.

2. Notwithstanding paragraph 1, the territory of the Principality of Liechtenstein shall be excluded from that of the EEA for the purpose of determining the origin of the products referred to in Tables I and II of Protocol 3, and such products shall be considered to be originating in the EEA only if they have been either wholly obtained or sufficiently worked or processed in the territories of the other Contracting Parties to the EEA Agreement.

Article 3

Wholly obtained products

1. The following shall be considered as wholly obtained in the EEA:

   (a) mineral products and natural water extracted from its soil or from its seabed;
   (b) plants, including aquatic plants, and vegetable products grown or harvested there;
   (c) live animals born and raised there;
   (d) products from live animals raised there;
   (e) products from slaughtered animals born and raised there;
   (f) products obtained by hunting or fishing conducted there;
   (g) products of aquaculture where the fish, crustaceans, molluscs and other aquatic invertebrates are born or raised there from eggs, larvae, fry or fingerlings;
(h) products of sea fishing and other products taken from the sea outside any territorial sea by its vessels;

(i) products made on board its factory ships exclusively from products referred to in point (h);

(j) used articles collected there fit only for the recovery of raw materials;

(k) waste and scrap resulting from manufacturing operations conducted there;

(l) products extracted from the seabed or below the seabed which is situated outside its territorial sea but where it has exclusive exploitation rights;

(m) goods produced there exclusively from the products specified in points (a) to (l).

2. The terms “its vessels” and “its factory ships” in points (h) and (i) of paragraph 1 respectively shall apply only to vessels and factory ships which meet each of the following requirements:

(a) they are registered in a Member State of the European Union or in an EFTA State;

(b) they sail under the flag of a Member State of the European Union or an EFTA State;

(c) they meet one of the following conditions:

(i) they are at least 50 % owned by nationals of the Contracting Parties to the EEA Agreement; or

(ii) they are owned by companies which:

   — have their head office and their main place of business in a Member State of the European Union or in an EFTA State; and

   — are at least 50 % owned by the Contracting Parties to the EEA Agreement or public entities or nationals thereof.

3. For the purpose of paragraph 2, the EFTA States are to be considered as one applying Contracting Party.

Article 4

Sufficient working or processing

1. Without prejudice to paragraph 3 of this Article and to Article 6, products which are not wholly obtained in the EEA shall be considered to be sufficiently worked or processed when the conditions laid down in the list in Annex II for the goods concerned are fulfilled.

2. If a product which has obtained originating status in the EEA in accordance with paragraph 1 is used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. The determination of whether the requirements of paragraph 1 are met, shall be carried out for each product.

However, where the relevant rule is based on compliance with a maximum content of non-originating materials, the customs authorities of the Contracting Parties to the EEA Agreement may authorise exporters to calculate the ex-works price of the product and the value of the non-originating materials on an average basis as set out in paragraph
4, in order to take into account the fluctuations in costs and currency rates.

4. Where the second subparagraph of paragraph 3 applies, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the same products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the same products over the preceding fiscal year as defined in that Contracting Party to the EEA Agreement, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.

5. Exporters having opted for calculation on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.

6. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials, respectively, for the purpose of establishing compliance with the maximum content of non-originating materials.

**Article 5**

**Tolerance rule**

1. By way of derogation from Article 4 and subject to paragraphs 2 and 3 of this Article, non-originating materials which, according to the conditions set out in the list in Annex II, are not to be used in the manufacture of a given product may nevertheless be used, provided that their total net weight or value assessed for the product does not exceed:

   (a) 15 % of the net weight of the product falling within Chapters 2 and 4 to 24, other than processed fishery products of Chapter 16;

   (b) 15 % of the ex-works price of the product for products other than those covered by point (a).

   This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System, for which the tolerances mentioned in Notes 6 and 7 of Annex I shall apply.

2. Paragraph 1 of this Article shall not allow to exceed any of the percentages for the maximum content of non-originating materials as specified in the rules laid down in the list in Annex II.

3. Paragraphs 1 and 2 of this Article shall not apply to products wholly obtained in the EEA within the meaning of Article 3. However, without prejudice to Article 6 and Article 9(1), the tolerance provided for in those provisions shall nevertheless apply to products for which the rule laid down in the list in Annex II requires that the materials which are used in the manufacture of that product are wholly obtained.

**Article 6**
**Insufficient working or processing**

1. Without prejudice to paragraph 2 of this Article, the following operations shall be considered to be insufficient working or processing to confer the status of an originating product, whether or not the requirements of Article 4 are satisfied:

   (a) preserving operations to ensure that the products remain in good condition during transport and storage;

   (b) breaking-up and assembly of packages;

   (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

   (d) ironing or pressing of textiles;

   (e) simple painting and polishing operations;

   (f) husking and partial or total milling of rice; polishing, and glazing of cereals and rice;

   (g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;

   (h) peeling, stoning and shelling, of fruits, nuts and vegetables;

   (i) sharpening, simple grinding or simple cutting;

   (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);

   (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

   (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

   (m) simple mixing of products, whether or not of different kinds;

   (n) mixing of sugar with any material;

   (o) simple addition of water or dilution or dehydration or denaturation of products;

   (p) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

   (q) slaughter of animals;

   (r) a combination of two or more operations specified in points (a) to (q).

2. All the operations carried out in the EEA on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

**Article 7**

**Cumulation of origin**

1. Without prejudice to Article 2, products shall be considered as originating in the EEA, if they are obtained there, incorporating materials originating in any applying Contracting Party provided that the working or processing carried out in the EEA goes beyond the operations referred to in Article 6. It shall not be necessary for such materials to have
undergone sufficient working or processing.

2. Where the working or processing carried out in the EEA does not go beyond the operations referred to in Article 6, the product obtained by incorporating materials originating in any other applying Contracting Party, shall be considered as originating in the EEA only where the value added there is greater than the value of the materials used originating in any of the other applying Contracting Parties. If this is not so, the product obtained shall be considered as originating in the applying Contracting Party which accounts for the highest value of originating materials used in the manufacture in the EEA.

3. Without prejudice to Article 2, and with the exclusion of products falling within Chapters 50 to 63, working or processing carried out in an applying Contracting Party other than a Contracting Party to the EEA Agreement shall be considered as having been carried out in the EEA when the products obtained undergo subsequent working or processing in the EEA.

4. Without prejudice to Article 2, for products falling within Chapters 50 to 63 and only for the purpose of bilateral trade between the Contracting Parties to the EEA Agreement, working or processing carried out in the importing Contracting Party to the EEA Agreement shall be considered as having been carried out in the EEA when the products undergo subsequent working or processing in the EEA.

For the purpose of this paragraph, the participants in the European Union’s Stabilisation and Association process and the Republic of Moldova are to be considered as one applying Contracting Party.

5. The Contracting Parties to the EEA Agreement may, by way of a decision of the EEA Joint Committee, jointly opt to extend the application of paragraph 3 of this Article on importation of products falling within Chapters 50 to 63.

6. For the purpose of cumulation within the meaning of paragraphs 3 to 5 of this Article, the originating products shall be considered as originating in the EEA only if the working or processing undergone there goes beyond the operations referred to in Article 6.

7. Products originating in one of the applying Contracting Parties which do not undergo any working or processing in the EEA shall retain their origin if exported into one of the other Contracting Parties to the EEA Agreement.

\[\text{Article 8} \]

\textbf{Conditions for the application of cumulation of origin}

1. The cumulation provided for in Article 7 may be applied only provided that:

(a) a preferential trade agreement in accordance with Article XXIV of the General Agreement on Tariffs and Trade 1994 (GATT) is applicable between the applying Contracting Parties involved in the acquisition of the originating status and the Contracting Party to the EEA Agreement of destination; and

(b) goods have obtained originating status by the application of rules of origin identical to those given in these Rules.

2. Notices indicating the fulfilment of the necessary requirements to apply cumulation shall be published in the \textit{Official Journal of the European Union} (C series) and in an official publication in other Contracting Parties to the EEA Agreement.
Agreement, in accordance with their own procedures.

The cumulation provided for in Article 7 shall apply from the date indicated in those notices.

The Contracting Parties to the EEA Agreement shall provide the European Commission, with details of the relevant agreements concluded with other applying Contracting Parties, including the dates of entry into force of these Rules.

3. The proof of origin should include the statement in English “CUMULATION APPLIED WITH (name of the relevant applying Contracting Party/Parties in English)” when products obtained the originating status by application of cumulation of origin in accordance with Article 7.

In cases where a movement certificate EUR.1 is used as a proof of origin, that statement shall be made in Box 7 of the movement certificate EUR.1.

4. The Contracting Parties to the EEA Agreement may decide, for the products exported within EEA that obtained the originating status by application of cumulation of origin in accordance with Article 7, to waive the obligation of including on the proof of origin the statement referred to in paragraph 3 of this Article.

The Contracting Parties to the EEA Agreement shall notify the waiver to the European Commission in accordance with Article 8(2).

**Article 9**

*Unit of qualification*

1. The unit of qualification for the application of these Rules shall be the particular product which is considered to be the basic unit when determining classification using the nomenclature of the Harmonised System. It follows that:

   (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

   (b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each individual item shall be taken into account when applying these Rules.

2. Where under General Rule 5 of the Harmonised System packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

3. Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle which are part of the normal equipment and included in the ex-works price thereof shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

**Article 10**

*Sets*

---

7 The Contracting Parties to the EEA Agreement agree to waive the obligation to include in the proof of origin the statement referred to in Article 8(3).
Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all the component products are originating.

When a set is composed of originating and non-originating products, the set as a whole shall however be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

**Article 11**

**Neutral elements**

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

(a) energy and fuel;
(b) plant and equipment;
(c) machines and tools;
(d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

**Article 12**

**Accounting segregation**

1. If originating and non-originating fungible materials are used in the working or processing of a product, economic operators may ensure the management of materials using the accounting segregation method, without keeping the materials on separate stocks.

2. Economic operators may ensure the management of originating and non-originating fungible products of heading 1701 using the accounting segregation method, without keeping the products on separate stocks.

3. The Contracting Parties to the EEA Agreement may require that the application of accounting segregation is subject to prior authorisation by the customs authorities. The customs authorities may grant the authorisation subject to any conditions they deem appropriate and shall monitor the use made of the authorisation. The customs authorities may withdraw the authorisation whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in these Rules.

Through the use of accounting segregation it must be ensured that, at any time, no more products can be considered as “originating in the EEA” than would have been the case if a method of physical segregation of the stocks had been used.

The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the Contracting Party to the EEA Agreement.

4. The beneficiary of the method referred to in paragraphs 1 and 2 shall make out or apply for proofs of origin for the quantity of products which may be considered as originating in the EEA. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.
TITLE III
TERRITORIAL REQUIREMENTS

Article 13
Principle of territoriality

1. The conditions set out in Title II shall be fulfilled without any interruption in the EEA.

2. If originating products exported from the EEA to another country are returned, they shall be considered to be non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:
   (a) the products returned are the same as those which were exported; and
   (b) they have not undergone any operations beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The obtention of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the EEA on materials exported from the EEA and subsequently re-imported there, provided:
   (a) those materials are wholly obtained in the EEA or have undergone working or processing beyond the operations referred to in Article 6 prior to being exported; and
   (b) it can be demonstrated to the satisfaction of the customs authorities that:
      (i) the re-imported products have been obtained by working or processing the exported materials; and
      (ii) the total added value acquired outside the EEA by applying this Article does not exceed 10 % of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3 of this Article, the conditions for obtaining originating status set out in Title II shall not apply to working or processing done outside the EEA. However, where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the Contracting Party to the EEA Agreement concerned, taken together with the total added value acquired outside the EEA by applying this Article, shall not exceed the stated percentage.

5. For the purposes of applying paragraphs 3 and 4, “total added value” shall be taken to mean all costs arising outside the EEA, including the value of the materials incorporated there.

6. Paragraphs 3 and 4 of this Article shall not apply to products which do not fulfill the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 5 is applied.
7. Any working or processing of the kind covered by this Article and done outside the EEA shall be done under the outward processing arrangements, or similar arrangements.

Article 14
Non-alteration

1. The preferential treatment provided for under the EEA Agreement shall apply only to products satisfying the requirements of these Rules and declared for importation in a Contracting Party to the EEA Agreement provided that those products are the same as those exported from the exporting Contracting Party to the EEA Agreement. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Contracting Party to the EEA Agreement carried out under customs supervision in the third country(ies) of transit or splitting prior to being declared for home use.

2. Storage of products or consignments may take place provided they remain under customs supervision in the third country(ies) of transit.

3. Without prejudice to Title V of this Appendix, the splitting of consignments may take place, provided they remain under customs supervision in the third country(ies) of splitting.

4. In the case of doubt, the importing Contracting Party to the EEA Agreement may request the importer or its representative to submit at any time all appropriate documents to provide evidence of compliance with this Article, which may be given by any documentary evidence, and notably by:

(a) contractual transport documents such as bills of lading;
(b) factual or concrete evidence based on marking or numbering of packages;
(c) a certificate of non-manipulation provided by the customs authorities of the country(ies) of transit or splitting or any other documents demonstrating that the goods remained under customs supervision in the country(ies) of transit or splitting; or
(d) any evidence related to the goods themselves.

Article 15
Exhibitions

1. Originating products, sent for exhibition in a country other than with which cumulation is applicable in accordance with Articles 7 and 8 and sold after the exhibition for importation in the EEA, shall benefit on importation from the EEA Agreement provided it is shown to the satisfaction of the customs authorities that:

(a) an exporter has consigned the products from a Contracting Party to the EEA Agreement to the country in which the exhibition is held and has exhibited them there;

(b) the products have been sold or otherwise disposed of by that exporter to a person in another Contracting Party to the EEA Agreement;
(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with Title V of this Appendix and submitted to the customs authorities of the importing Contracting Party to the EEA Agreement in the normal manner. The name and address of the exhibition shall be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.
TITLE IV
DRAWBACK OR EXEMPTION

Article 16

Drawback of or exemption from customs duties

1. Non-originating materials used in the manufacture of products falling within Chapters 50 to 63 of the Harmonised System originating in the EEA for which a proof of origin is issued or made out in accordance with Title V of this Appendix shall not be subject in the exporting Contracting Party to the EEA Agreement to drawback of or exemption from customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in any exporting Contracting Party to the EEA Agreement to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.

3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.

4. The prohibition in paragraph 1 of this Article shall not apply to trade between the Contracting Parties to the EEA Agreement for products that obtained originating status by application of cumulation of origin covered by Article 7(4) or (5).
TITLE V

PROOF OF ORIGIN

Article 17

General requirements

1. Originating products shall, on importation into a Contracting Party to the EEA Agreement, benefit from the provisions of the EEA Agreement upon submission of one of the following proofs of origin:

   (a) a movement certificate EUR.1, a specimen of which appears in Annex IV to this Appendix;

   (b) in the cases specified in Article 18(1), a declaration, subsequently referred to as the “origin declaration” given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the origin declaration appears in Annex III to this Appendix.

2. Notwithstanding paragraph 1 of this Article, originating products within the meaning of these Rules shall, in the cases specified in Article 27, benefit from the provisions of the EEA Agreement without it being necessary to submit any of the proofs of origin referred to in paragraph 1 of this Article.

3. Without prejudice to paragraph 1, the Contracting Parties to the EEA Agreement may agree that, for the preferential trade between them, proofs of origin listed in points (a) and (b) of paragraph 1 are replaced by statements on origin made out by exporters registered in an electronic database in accordance with the internal legislation of the Contracting Parties to the EEA Agreement.

   The use of a statement on origin made out by the exporters registered in an electronic database agreed by two or more applying Contracting Parties shall not impede the use of diagonal cumulation with other applying Contracting Parties.

4. For the purposes of paragraph 1, the Contracting Parties to the EEA Agreement may agree to establish a system that allows proofs of origin listed in points (a) and (b) of paragraph 1 to be issued electronically and/or submitted electronically.

5. For the purpose of Article 7, if Article 8(4) applies, the exporter established in an applying Contracting Party who issues, or applies for, a proof of origin on the basis of another proof of origin which benefits from a waiver from the obligation to include the statement as otherwise required by Article 8(3) shall take all necessary steps to ensure that the conditions for applying cumulation are fulfilled and shall be prepared to submit all relevant documents to the customs authorities.

Article 18

Conditions for making out an origin declaration

1. An origin declaration as referred to in point (b) of Article 17(1) may be made out:
(a) by an approved exporter within the meaning of Article 19; or
(b) by any exporter for any consignment consisting of one or more packages containing originating products the total value of which does not exceed EUR 6 000.

2. An origin declaration may be made out if the products can be considered as originating in the EEA or an applying Contracting Party and fulfil the other requirements of these Rules.

3. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting Contracting Party to the EEA Agreement, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of these Rules.

4. An origin declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex III to this Appendix, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the national law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 19 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting Contracting Party to the EEA Agreement a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.

6. An origin declaration may be made out by the exporter when the products to which it relates are exported, or after exportation (the “retrospective origin declaration”) on condition that it is presented in the importing country within two years after the importation of the products to which it relates.

Where the splitting of a consignment takes place in accordance with Article 14(3) and provided that the same two-year deadline is respected, the retrospective origin declaration shall be made out by the approved exporter of the exporting Contracting Party to the EEA Agreement of the products.

Article 19
Approved exporter

1. The customs authorities of the exporting Contracting Party to the EEA Agreement may, subject to national requirements, authorise any exporter established in that Contracting Party to the EEA Agreement (the “approved exporter”), to make out origin declarations irrespective of the value of the products concerned.

2. An exporter who requests such authorisation must offer, to the satisfaction of the customs authorities, all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of these Rules.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration.

4. The customs authorities shall verify the proper use of an authorisation. They may withdraw the authorisation if the approved exporter makes improper use of it and shall do so if the approved exporter no longer offers the guarantees referred to in paragraph 2.
Article 20

Procedure for issuing of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Contracting Party to the EEA Agreement on application having been made in writing by the exporter or, under the exporter’s responsibility, by his authorised representative.

2. For that purpose, the exporter or his authorised representative shall fill in both the movement certificate EUR.1 and the application form, specimens of which appear in Annex IV to this Appendix. Those forms shall be completed in one of the languages in which the EEA Agreement is drawn up and in accordance with the provisions of the national law of the exporting Contracting Party to the EEA Agreement. If the completion of the forms is done in handwriting, they shall be completed in ink in printed characters. The description of the products shall be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line shall be drawn below the last line of the description, the empty space being crossed through.

3. The movement certificate EUR.1 shall include the statement in English “TRANSITIONAL RULES” in box 7.

4. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting Contracting Party to the EEA Agreement where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of these Rules.

5. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting Contracting Party to the EEA Agreement if the products concerned can be considered as products originating and fulfil the other requirements of these Rules.

6. The customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of these Rules. For that purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter’s accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 of this Article are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

7. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the movement certificate EUR.1.

8. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 21

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 20(8), a movement certificate EUR.1 may be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special
circumstances;

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons;

(c) the final destination of the products concerned was not known at the time of exportation and was determined during their transportation or storage and after possible splitting of consignments in accordance with Article 14(3);

(d) a movement certificate EUR.1 or EUR.MED was issued in accordance with the rules of the PEM Convention for products that are also originating in accordance with these Rules; the exporter shall take all necessary steps to ensure that the conditions to apply cumulation are fulfilled and be prepared to submit to the customs authorities all relevant documents proving that the product is originating in accordance with these Rules; or

(e) a movement certificate EUR.1 was issued on the basis of Article 8(4) and the application of Article 8(3) is required at importation in another applying Contracting Party.

2. For the implementation of paragraph 1, the exporter shall indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively within two years from the date of exportation and only after verifying that the information supplied in the exporter’s application complies with that in the corresponding file.

4. In addition to the requirement under Article 20(3), movement certificates EUR.1 issued retrospectively shall be endorsed with the following phrase in English: “ISSUED RETROSPECTIVELY”.

5. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the movement certificate EUR.1.

Article 22

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. In addition to the requirement under Article 20(3), the duplicate issued in accordance with paragraph 1 of this Article shall be endorsed with the following word in English: “DUPLICATE”.

3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1.

4. The duplicate, which shall bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 23
Validity of proof of origin

1. A proof of origin shall be valid for ten months from the date of issue or making out in the exporting Contracting Party to the EEA Agreement, and shall be submitted within that period to the customs authorities of the importing Contracting Party to the EEA Agreement.

2. Proofs of origin which are submitted to the customs authorities of the importing Contracting Party to the EEA Agreement after the period of validity referred to in paragraph 1 may be accepted for the purpose of applying the tariff preferences, where failure to submit those documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing Contracting Party to the EEA Agreement may accept the proofs of origin where the products have been presented to customs before the said final date.

Article 24
Free zones

1. The Contracting Parties to the EEA Agreement shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By way of derogation from paragraph 1, when products originating in the EEA or an applying Contracting Party are imported into a free zone under cover of a proof of origin and undergo treatment or processing, a new proof or origin may be issued or made out, if the treatment or processing undergone complies with these Rules.

Article 25
Importation requirements

Proofs of origin shall be submitted to the customs authorities of the importing Contracting Party to the EEA Agreement in accordance with the procedures applicable in that Contracting Party to the EEA Agreement.

Article 26
Importation by instalments

Where, at the request of the importer and subject to the conditions laid down by the customs authorities of the importing Contracting Party to the EEA Agreement, dismantled or non-assembled products within the meaning of General Rule 2(a) for the interpretation of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities on importation of the first instalment.

Article 27
Exemptions from proof of origin
1. Products sent as small packages from private persons to private persons or forming part of travellers’ personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of these Rules and where there is no doubt as to the veracity of such a declaration.

2. Imports shall not be considered as imports by way of trade if all the following conditions are met:

   (a) the imports are occasional;

   (b) the imports consist solely of products for the personal use of the recipients or travellers or their families;

   (c) it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. The total value of those products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers’ personal luggage.

**Article 28**

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that that document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin shall not cause the documents referred to in paragraph 1 of this Article to be rejected if those errors are not such as to create doubts concerning the correctness of the statements made in those documents.

**Article 29**

Supplier’s declarations

1. When a movement certificate EUR.1 is issued or an origin declaration is made out in a Contracting Party to the EEA Agreement for originating products, in the manufacture of which goods coming from another applying Contracting Party which have undergone working or processing there without having obtained preferential originating status have been used in accordance with Article 7(3) or Article 7(4) account shall be taken of the supplier’s declaration given for those goods in accordance with this Article.

2. The supplier’s declaration referred to in paragraph 1 shall serve as evidence of the working or processing undergone in the EEA or in an applying Contracting Party by the goods concerned for the purpose of determining whether the products in the manufacture of which those goods are used, may be considered as products originating in the EEA and fulfill the other requirements of these Rules.

3. A separate supplier’s declaration shall, except in the cases referred to in paragraph 4, be made out by the supplier for each consignment of goods in the form prescribed in Annex VI on a sheet of paper annexed to the invoice, the
delivery note or any other commercial document describing the goods concerned in sufficient detail to enable them to be identified.

4. Where a supplier regularly supplies a particular customer with goods for which the working or processing undergone in the EEA or an applying Contracting Party is expected to remain constant for a period of time, he may provide a single supplier’s declaration to cover subsequent consignments of those goods (the “long-term supplier’s declaration”). A long-term supplier’s declaration may normally be valid for a period of up to two years from the date of making out the declaration. The customs authorities of the applying Contracting Party where the declaration is made out may lay down the conditions under which longer periods may be used. The long-term supplier’s declaration shall be made out by the supplier in the form prescribed in Annex VII and shall describe the goods concerned in sufficient detail to enable them to be identified. It shall be provided to the customer concerned before he is supplied with the first consignment of goods covered by that declaration or together with his first consignment. The supplier shall inform his customer immediately if the long-term supplier’s declaration is no longer applicable to the goods supplied.

5. The supplier’s declarations referred to in paragraphs 3 and 4 shall be typed or printed using one of the languages of the EEA Agreement, in accordance with the national law of the applying Contracting Party where the declaration is made out, and shall bear the original signature of the supplier in manuscript. The declaration may also be handwritten; in such a case, it shall be written in ink in printed characters.

6. The supplier making out a declaration shall be prepared to submit at any time, at the request of the customs authorities of the applying Contracting Party where the declaration is made out, all appropriate documents proving that the information given on that declaration is correct.

Article 30

Amounts expressed in euro

1. For the purposes of application of the point (b) of Article 18(1) and Article 27(3) in cases where products are invoiced in a currency other than euro, amounts in the national currencies of the Contracting Parties to the EEA Agreement equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the point (b) of Article 18(1) or Article 27(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. The Contracting Parties to the EEA Agreement may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5%. A Party may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15% in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion were to result in a decrease in that equivalent value.
5. The amounts expressed in euro shall be reviewed by the EEA Joint Committee at the request of a Contracting Party to the EEA Agreement. When carrying out that review, the EEA Joint Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For that purpose, it may decide to modify the amounts expressed in euro.
TITLE VI
PRINCIPLES OF COOPERATION
AND DOCUMENTARY EVIDENCE

Article 31

Documentary evidence, preservation of proofs of
origin and supporting documents

1. An exporter who has made out an origin declaration or has applied for a movement certificate EUR.1 shall keep a hard copy or an electronic version of those proofs of origin and all documents supporting the originating status of the product, for at least three years from the date of issuance or making out of the origin declaration.

2. The supplier making out a supplier’s declaration shall keep copies of the declaration and of all the invoices, delivery notes or other commercial documents to which that declaration is annexed as well as the documents referred to in Article 29(6) for at least three years. The supplier making out a long-term supplier’s declaration shall keep copies of the declaration and of all the invoices, delivery notes or other commercial documents concerning goods covered by that declaration sent to the customer concerned, as well as the documents referred to in Article 29(6) for at least three years. That period shall begin from the date of expiry of validity of the long-term supplier’s declaration.

3. For the purposes of paragraph 1 of this Article, the documents supporting the originating status, *inter alia*, are the following:

   (a) direct evidence of the processes carried out by the exporter or supplier to obtain the product, contained, for example, in his accounts or internal bookkeeping;

   (b) documents proving the originating status of materials used, issued or made out in the relevant applying Contracting Party in accordance with its national legislation;

   (c) documents proving the working or processing of materials in the relevant Contracting Party to the EEA Agreement, made out or issued in that Contracting Party to the EEA Agreement in accordance with its national legislation;

   (d) origin declarations or movement certificates EUR.1 proving the originating status of materials used, made out or issued in the Contracting Parties to the EEA Agreement in accordance with these Rules;

   (e) appropriate evidence concerning working or processing undergone outside the EEA by application of Articles 13 and 14, proving the fulfilment of the requirements of those Articles.

4. The customs authorities of the exporting Contracting Party to the EEA Agreement issuing movement certificates EUR.1 shall keep the application form referred to in Article 20(2) for at least three years.
5. The customs authorities of the importing Contracting Party to the EEA Agreement shall keep the origin declarations and the movement certificates EUR.1 submitted to them for at least three years.

6. Supplier’s declarations proving the working or processing undergone in an applying Contracting Party or in the EEA by materials used, made out in that applying Contracting Party or in the EEA, shall be treated as a document referred to in Articles 18(3), 20(4) and 29(6) used for the purpose of proving that products covered by a movement certificate EUR.1 or an origin declaration may be considered as products originating in that applying Contracting Party or in the EEA and fulfil the other requirements of these Rules.

**Article 32**

**Dispute settlement**

Where disputes arise in relation to the verification procedures under Articles 34 and 35, or in relation to the interpretation of this Appendix, which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out the verification, they shall be submitted to the EEA Joint Committee.

In all cases the settlement of disputes between the importer and the customs authorities of the importing Contracting Party to the EEA Agreement shall take place in accordance with the legislation of that country.
TITLE VII
ADMINISTRATIVE COOPERATION

Article 33
Notification and cooperation

1. The customs authorities of the Contracting Parties to the EEA Agreement shall provide each other with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1, with the models of the authorisation numbers granted to approved exporters and with the addresses of the customs authorities responsible for verifying those certificates and origin declarations.

2. In order to ensure the proper application of these Rules, the Contracting Parties to the EEA Agreement shall assist each other, through the competent customs authorities, in checking the authenticity of the movement certificates EUR.1, the origin declarations, the supplier’s declarations and the correctness of the information given in those documents.

Article 34
Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing Contracting Party to the EEA Agreement have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of these Rules.

2. When they make a request for subsequent verification, the customs authorities of the importing Contracting Party to the EEA Agreement shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the origin declaration, or a copy of those documents, to the customs authorities of the exporting Contracting Party to the EEA Agreement giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting Contracting Party to the EEA Agreement. For that purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter’s accounts or any other check considered appropriate.

4. If the customs authorities of the importing Contracting Party to the EEA Agreement decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. Those results shall indicate clearly whether the documents are authentic and whether the products concerned may be considered as products originating in the EEA and fulfil the other requirements of these Rules.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

**Article 35**

**Verification of supplier’s declarations**

1. Subsequent verifications of supplier’s declarations or long-term supplier’s declarations may be carried out at random or whenever the customs authorities of a Contracting Party to the EEA Agreement where such declarations have been taken into account to issue a movement certificate EUR.1 or to make out an origin declaration, have reasonable doubts as to the authenticity of the document or the correctness of the information given in that document.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the Party referred to in paragraph 1 shall return the supplier’s declaration or the long-term supplier’s declaration and invoice(s), delivery note(s) or other commercial document(s) concerning goods covered by such declaration, to the customs authorities of the applying Contracting Party where the declaration was made out, giving, where appropriate, the reasons of substance or form of the request for verification.

   They shall forward, in support of the request for subsequent verification, any documents and information that have been obtained suggesting that the information given in the supplier’s declaration or the long-term supplier’s declaration is incorrect.

3. The verification shall be carried out by the customs authorities of the applying Contracting Party where the supplier’s declaration or the long-term supplier’s declaration was made out. For that purpose, they shall have the right to call for any evidence and carry out any inspection of the supplier’s accounts or any other check which they consider appropriate.

4. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. Those results shall indicate clearly whether the information given in the supplier’s declaration or the long-term supplier’s declaration is correct and make it possible for them to determine whether and to what extent such declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an origin declaration.

**Article 36**

**Penalties**

Each Contracting Party to the EEA Agreement shall provide for the imposition of criminal, civil or administrative penalties for violations of its national legislation related to these Rules.
TITLE VIII
APPLICATION OF APPENDIX A

Article 37
Liechtenstein

Without prejudice to Article 2, a product originating in Liechtenstein shall, due to the customs union between Switzerland and Liechtenstein, be considered as originating in Switzerland.

Article 38
Republic of San Marino

Without prejudice to Article 2, a product originating in the Republic of San Marino shall, due to the customs union between the European Union and the Republic of San Marino, be considered as originating in the European Union.

Article 39
Principality of Andorra

Without prejudice to Article 2, a product originating in the Principality of Andorra classified under Chapters 25 to 97 of the Harmonised System shall, due to the customs union between the European Union and the Principality of Andorra, be considered as originating in the European Union.

Article 40
Ceuta and Melilla

1. For the purposes of these Rules, the term “EEA” shall not cover Ceuta and Melilla.

2. For the purposes of applying Protocol 49 to the EEA Agreement concerning products originating in Ceuta and Melilla, these Rules shall apply mutatis mutandis subject to the special conditions set out in Annex V.
ANNEX I

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1 – General introduction

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 4 of Title II of this Appendix. There are four different types of rules, which vary according to the product:

(a) through working or processing a maximum content of non-originating materials is not exceeded;

(b) through working or processing the 4-digit Harmonised System heading or 6-digit Harmonised System subheading of the manufactured products becomes different from the 4-digit Harmonised System heading or 6-digit subheading respectively of the materials used;

(c) a specific working or processing operation is carried out;

(d) working or processing is carried out on certain wholly obtained materials.

Note 2 – The structure of the list

2.1. The first two columns in the list describe the product obtained. The column (1) gives the heading number or chapter number used in the Harmonised System and the column (2) gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column (3). Where, in some cases, the entry in the column (1) is preceded by an "ex", this signifies that the rules in column (3) apply only to the part of that heading as described in column (2).

2.2. Where several heading numbers are grouped together in column (1) or a chapter number is given and the description of products in column (2) is therefore given in general terms, the adjacent rules in column (3) apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column (1).

2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column (3).

2.4. Where two alternative rules are set out in column (3), separated by “or”, it is at the choice of the exporter which one to use.

Note 3 – Examples of how to apply the rules

3.1. Article 4 of Title II of this Appendix, concerning products having obtained originating status which are used in the manufacture of other products, shall apply, regardless of whether that status has been obtained inside the factory where those products are used or in another factory in the EEA.

3.2. Pursuant to Article 6 of Title II of this Appendix, the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.
Subject to Article 6 of Title II of this Appendix, the rules in the list represent the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status.

Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

If a rule provides that non-originating material, at a certain level of manufacture, may not be used, the use of materials at an earlier stage of manufacture is allowed, and the use of materials at a later stage is not.

Example: when the list-rule for Chapter 19 requires that “non-originating materials of headings 1101 to 1108 cannot exceed 20 % weight”, the use (i.e. importation) of cereals of Chapter 10 (materials at an earlier stage of manufacture) is not limited.

3.3. Without prejudice to Note 3.2, where a rule uses the expression “Manufacture from materials of any heading”, then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression “Manufacture from materials of any heading, including other materials of heading ...” or “Manufacture from materials of any heading, including other materials of the same heading as the product” means that materials of any heading(s) may be used, except those of the same description as the product as given in column (2) of the list.

3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy this.

3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then those percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages shall not be exceeded, in relation to the particular materials to which they apply.

Note 4 – General provisions concerning certain agricultural goods

4.1. Agricultural goods falling within Chapters 6, 7, 8, 9, 10, 12 and heading 2401 which are grown or harvested in the EEA shall be treated as originating in the EEA, even if grown from imported seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants.

4.2. In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 1701 (sucrose) and 1702 (e.g., fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for the calculation of such limitations.

Note 5 – Terminology used in respect of certain textile products

5.1. The term “natural fibres” is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to
the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have
been carded, combed or otherwise processed, but not spun.

5.2. The term “natural fibres” includes horsehair of heading 0511, silk of headings 5002 and 5003, as well as wool-fibres
and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable
fibres of headings 5301 to 5305.

5.3. The terms “textile pulp”, “chemical materials” and “paper-making materials” are used in the list to describe the
materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or
yarns.

5.4. The term “man-made staple fibres” is used in the list to refer to synthetic or artificial filament tow, staple fibres or
waste, of headings 5501 to 5507.

5.5. Printing (when combined with Weaving, Knitting/Crocheting, Tufting or Flocking) is defined as a technique by
which an objectively assessed function, like colour, design, technical performance, is given to a textile substrate with a
permanent character, using screen, roller, digital or transfer techniques.

5.6. Printing (as standalone operation) is defined as a technique by which an objectively assessed function, like colour,
design, technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or
transfer techniques combined with at least two preparatory/finishing operations (such as scouring, bleaching,
mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatising,
impregnating, mending and burling), provided that the value of all the materials used does not exceed 50 % of the ex-
works price of the product.

Note 6 – Tolerances applicable to products made of a mixture of textile materials

6.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column (3) shall not be
applied to any basic textile materials used in the manufacture of that product and which, taken together, represent 15
% or less of the total weight of all the basic textile materials used (See also Notes 6.3 and 6.4).

6.2. However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from
two or more basic textile materials.

The following are the basic textile materials:

- silk;
- wool;
- coarse animal hair;
- fine animal hair;
- horsehair;
- cotton;
- paper-making materials and paper;
- flax;
- true hemp;
- jute and other textile bast fibres;
- sisal and other textile fibres of the genus Agave;
- coconut, abaca, ramie and other vegetable textile fibres;
- synthetic man-made filament fibres of polypropylene;
- synthetic man-made filament fibres of polyester;
- synthetic man-made filament fibres of polyamide;
- synthetic man-made filament fibres of polyacrylonitrile;
- synthetic man-made filament fibres of polyimide;
- synthetic man-made filament fibres of polytetrafluoroethylene;
- synthetic man-made filament fibres of poly(phenylene sulphide);
- synthetic man-made filament fibres of poly(vinyl chloride);
- other synthetic man-made filament fibres;
- artificial man-made filament fibres of viscose;
- other artificial man-made filament fibres;
- current-conducting filaments;
- synthetic man-made staple fibres of polypropylene;
- synthetic man-made staple fibres of polyester;
- synthetic man-made staple fibres of polyamide;
- synthetic man-made staple fibres of polyacrylonitrile;
- synthetic man-made staple fibres of polyimide;
- synthetic man-made staple fibres of polytetrafluoroethylene;
- synthetic man-made staple fibres of poly(phenylene sulphide);
- synthetic man-made staple fibres of poly(vinyl chloride);
- other synthetic man-made staple fibres;
- artificial man-made staple fibres of viscose;
- other artificial man-made staple fibres;
yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;

- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;

- other products of heading 5605;
- glass fibres;
- metal fibres;
- mineral fibres.

6.3. In the case of products incorporating “yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped”, this tolerance is 20% in respect of this yarn.

6.4. In the case of products incorporating “strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film”, this tolerance is 30% in respect of this strip.

Note 7 – Other tolerances applicable to certain textile products

7.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings) which do not satisfy the rule set out in the list in column (3) for the made-up product concerned may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 15% of the ex-works price of the product.

7.2. Without prejudice to Note 7.3, materials which are not classified within Chapters 50 to 63 may be used freely in the manufacture of textile products, whether or not they contain textiles.

7.3. Where a percentage rule applies, the value of non-originating materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 8 – Definition of specific processes and simple operations carried out in respect of certain products of Chapter 27

8.1. For the purposes of headings ex 2707 and 2713, the “specific processes” are the following:

(a) vacuum-distillation;
(b) redistillation by a very thorough fractionation process;
(c) cracking;
(d) reforming;
(e) extraction by means of selective solvents;
(f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active
8.2. For the purposes of headings 2710, 2711 and 2712, the “specific processes” are the following:

(a) vacuum-distillation;
(b) redistillation by a very thorough fractionation process;
(c) cracking;
(d) reforming;
(e) extraction by means of selective solvents;
(f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;
(h) alkylation;
(i) isomerisation;

(j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge;

(o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

8.3. For the purposes of headings ex 2707 and 2713, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of those operations or like operations, do not confer origin.
Note 9 – Definition of specific processes and operations carried out in respect of certain products

9.1. Products falling within Chapter 30 obtained in the EEA by using cell cultures, shall be considered as originating in the EEA. “Cell culture” is defined as the cultivation of human, animal and plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, pH) outside a living organism.

9.2. Products falling within Chapters 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 3301), 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26) obtained in the EEA by fermentation shall be considered as originating in the EEA. “Fermentation” is a biotechnological process in which human, animal, plant cells, bacteria, yeasts, fungi or enzymes are used to produce products falling within Chapters 29 to 39.

9.3. The following processing operations are considered sufficient according to paragraph 1 of Article 4 for products falling within Chapters 28, 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 3301), 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26):

- Chemical reaction: A “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. A chemical reaction may be expressed by a change of the “CAS number”.

The following processes should not be considered for purposes of origin: (a) dissolving in water or other solvents; (b) the elimination of solvents, including solvent water; or (c) the addition or elimination of water of crystallization. A chemical reaction as defined above is to be considered as origin conferring.

- Mixtures and Blends: The deliberate and proportionally controlled mixing or blending (including dispersing) of materials, other than the addition of diluents, to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is to be considered to be as origin conferring.

- Purification: Purification is to be considered as origin conferring provided that purification occurring in the EEA results in one of the following criteria being satisfied:

  (a) purification of a good resulting in the elimination of at least 80 % of the content of existing impurities; or

  (b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:

    (i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;

    (ii) chemical products and reagents for analytical, diagnostic or laboratory uses;

    (iii) elements and components for use in micro-electronics;

    (iv) specialised optical uses;
(v) biotechnical use (e.g., in cell culturing, in genetic technology, or as a catalyst);

(vi) carriers used in a separation process; or

(vii) nuclear grade uses.

— Change in particle size: The deliberate and controlled modification in particle size of a good, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area which is relevant to the purposes of the resulting good and having different physical or chemical characteristics from the input materials is to be considered as origin conferring.

— Standard materials: Standard materials (including standard solutions) are preparations suitable for analytical, calibrating or referencing uses having precise degrees of purity or proportions which are certified by the manufacturer. The production of standard materials is to be considered as origin conferring.

— Isomer separation: The isolation or separation of isomers from a mixture of isomers is to be considered as origin conferring.
## ANNEX II

### LIST OF WORKING OR PROCESSING REQUIRED TO BE CARRIED OUT ON NON-ORIGINATING MATERIALS

**IN ORDER FOR THE PRODUCT MANUFACTURED TO OBTAIN ORIGINATING STATUS**

<table>

Izvoznik blaga, zajetega s tem dokumentom (pooblastilo carinskih organov št ................(1)), izjavlja, da, razen če ni drugače jasno navedeno, ima to blago preferencialno ......................(2) poreklo v skladu s prehodnimi pravili o poreklu.

Spanish version

El exportador de los productos incluidos en el presente documento (autorización aduanera n.º………(1)) declara que, excepto donde se indique claramente lo contrario, estos productos son de origen preferencial……………..(2) con arreglo a las normas de origen transitorias.

Swedish version

Exportören av de varor som omfattas av detta dokument (tullmyndighetens tillstånd nr. ………(1)) försäkrar att dessa varor, om inte annat tydligt markerats, har förmånsberättigande ....................(2) ursprung i enlighet med övergångsreglerna om ursprung.

Turkish version

Bu belge kapsamındaki ürünlerin ihracatçısı (gümruk yetki No: ............(1)), aksi açıkça belirtildiğince, bu ürünlerin geçiş menşe kurallarına göre .........................(2) tercihli menşeli olduğunu beyan eder.

Ukrainian version

Експортер продукції, на яку поширюється цей документ (митний дозвіл № ………(1)) заявляє, що, за винятком випадків, де це явино зазначено, ця продукція має ...................(2) преференційне походження згідно з перехідними правилами походження.

..........................................................................................................................................................

(Place and date)(3)
(Signature of the exporter, in addition the name of the person signing the declaration has to be indicated in clear script)\(^{(4)}\)

(1) When the origin declaration is made out by an approved exporter, the authorisation number of the approved exporter must be entered in this space. When the origin declaration is not made out by an approved exporter, the words in brackets shall be omitted or the space left blank.

(2) Origin of products to be indicated. When the origin declaration relates in whole or in part, to products originating in Ceuta and Melilla, the exporter must clearly indicate them in the document on which the declaration is made out, by means of the symbol “CM”.

(3) These indications may be omitted if the information is contained on the document itself.

(4) In cases where the exporter is not required to sign, the exemption of signature also implies the exemption of the name of the signatory.
ANNEX IV

SPECIMENS OF MOVEMENT CERTIFICATE EUR.1
AND APPLICATION FOR A MOVEMENT CERTIFICATE EUR.1

PRINTING INSTRUCTIONS

1. Each form shall measure 210 x 297 mm; a tolerance of up to minus 5 mm or plus 8 mm in the length may be allowed. The paper used must be white, sized for writing, not containing mechanical pulp and weighing not less than 25 g/m². It shall have a printed green guilloche pattern background making any falsification by mechanical or chemical means apparent to the eye.

2. The competent authorities of the Contracting Parties to the EEA Agreement may reserve the right to print the forms themselves or may have them printed by approved printers. In the latter case, each form must include a reference to such approval. Each form must bear the name and address of the printer or a mark by which the printer can be identified. It shall also bear a serial number, either printed or not, by which it can be identified.

ANNEX V

SPECIAL CONDITIONS CONCERNING PRODUCTS ORIGINATING IN CEUTA AND MELILLA

Sole Article

1. Providing they comply with the non-alteration rule of Article 14 of this Appendix, the following shall be considered as:

   (1) products originating in Ceuta and Melilla:

   (a) products wholly obtained in Ceuta and Melilla;

   (b) products obtained in Ceuta and Melilla in the manufacture of which products other than products wholly obtained in Ceuta and Melilla are used, provided that:

   (i) the said products have undergone sufficient working or processing within the meaning of Article 4 of this Appendix; or

   (ii) those products originate in the EEA, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 6 of this Appendix;

   (2) products originating in the EEA;

   (a) products wholly obtained in the EEA;

   (b) products obtained in the EEA in the manufacture of which products other than products wholly obtained in the EEA are used, provided that:

   (i) those products have undergone sufficient working or processing within the meaning of Article 4 of this Appendix; or

   (ii) those products originate in Ceuta and Melilla or in the EEA, and they have been submitted to working or processing which goes beyond the operations referred to in Article 6 of this Appendix.

2. Ceuta and Melilla shall be considered as a single territory.

3. The exporter or his authorised representative shall enter the name of the exporting Party and “Ceuta and Melilla” in Box 2 of movement certificates EUR.1 or on origin declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on origin declarations.

4. The Spanish customs authorities shall be responsible for the application of these Rules in Ceuta and Melilla.
ANNEX VI

SUPPLIER’S DECLARATION

The supplier’s declaration, the text of which is provided below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

SUPPLIER’S DECLARATION

for goods which have undergone working or processing in the EEA or applying Contracting Parties without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by the annexed document, declare that:

1. The following materials which do not originate in the EEA or [indicate the name of the relevant applying Contracting Party(ies)] have been used in the EEA or [indicate the name of the relevant applying Contracting Party(ies)] to produce these goods:

<table>
<thead>
<tr>
<th>Description of the goods supplied(1)</th>
<th>Description of non-originating materials used</th>
<th>Heading of non-originating materials used(2)</th>
<th>Value of non-originating materials used(2)(3)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total value

2. All the other materials used in the EEA or [indicate the name of the relevant applying Contracting Party(ies)] to produce those goods originate in the EEA or [indicate the name of the relevant applying Contracting Party(ies)];

3. The following goods have undergone working or processing outside the EEA or [indicate the name of the relevant applying Contracting Party(ies)] in accordance with Article 13 of this Appendix and have acquired the following total added value there:

<table>
<thead>
<tr>
<th>Description of the goods supplied</th>
<th>Total added value acquired outside the EEA or <a href="4">indicate the name of the relevant applying Contracting Party(ies)</a></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(Place and date)
(1) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them. Example:
The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of those motors differ from one model to another. The models must therefore be differentiated in the first column and the indications in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which model of electrical motor he uses.

(2) The indications requested in those columns should only be given if they are necessary. Examples:
The rule for garments of ex Chapter 62 says Weaving combined with making-up including cutting of fabric may be used. If a manufacturer of such garments in an applying Contracting Party uses fabric imported from the European Union which has been obtained there by weaving non-originating yarn, it is sufficient for the European Union supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.
A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”. Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of non-originating bars.

(3) “Value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA or [indicate the name of the relevant applying Contracting Party(ies)].
The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(4) “Total added value” shall mean all costs accumulated outside the EEA and [indicate the name of the relevant applying Contracting Party(ies)], including the value of all materials added there. The exact total added value acquired outside the EEA and [indicate the name of the relevant applying Contracting Party(ies)] must be given per unit of the goods specified in the first column.
ANNEX VII

LONG-TERM SUPPLIER’S DECLARATION

The long-term supplier’s declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

LONG-TERM SUPPLIER’S DECLARATION

for goods which have undergone working or processing in the EEA or an applying Contracting Party without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by the annexed document, which are regularly supplied to(1) ……………., declare that:

1. The following materials which do not originate in the EEA or [indicate the name of the relevant applying Contracting Party(ies)] have been used in the EEA or [indicate the name of the relevant applying Contracting Party(ies)] to produce these goods:

<table>
<thead>
<tr>
<th>Description of the goods supplied(^{(2)})</th>
<th>Description of non-originating materials used</th>
<th>Heading of non-originating materials used(^{(3)})</th>
<th>Value of non-originating materials used(^{(3)(4)})</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>

</tr>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This declaration is valid for all subsequent consignments of those goods dispatched from ……………………………………………
to………………………………………………(6)

I undertake to inform …………………………..(1) immediately if this declaration is no longer valid.

(Place and date)

(Address and signature of the supplier; in addition the name of the person signing the declaration has to be indicated in clear script)

(1) Name and address of the customer.

(2) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them. Example:

The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of those motors differ from one model to another. The models must therefore be differentiated in the first column and the indications in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which model of electrical motor he uses.

(3) The indications requested in these columns should only be given if they are necessary. Examples:

The rule for garments of ex Chapter 62 says Weaving combined with making-up including cutting of fabric may be used. If a manufacturer of such garments in an applying Contracting Party uses fabric imported from the European Union which has been obtained there by weaving non-originating yarn, it is sufficient for the European Union supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”. Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value, it is necessary to indicate in the third column the value of non-originating bars.

(4) “Value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the EEA or [indicate the name of the relevant applying Contracting Party(ies)].

The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(5) “Total added value” shall mean all costs accumulated outside the EEA and [indicate the name of the relevant applying Contracting Party(ies)], including the value of all materials added there. The exact total added value acquired outside
the EEA and [indicate the name of the relevant applying Contracting Party(ies)] must be given per unit of the goods specified in the first column.

(6) Insert dates. The period of validity of the long-term supplier’s declaration should not normally exceed 24 months, subject to the conditions laid down by the customs authorities of the applying Contracting Party where the long-term supplier’s declaration is made out.'
