---

<sup>1</sup> Import ban for whale products is applied by Liechtenstein and Switzerland on the basis of the CITES Convention

- General aid measures concerning the sector as a whole and which are not fully directed towards structural measures in accordance with the provisions of paragraph (c)(ii) of Annex VI;
- tax concessions other than those that directly offset cost disadvantages clearly linked to special conditions prevailing in the fishing sector;
- social measures if the subsidy element of such measures exceeds what is generally applied in other sectors, taking into account the special conditions prevailing in the fishing sector.

3. The following aid measures shall normally be considered to be in accordance with the provisions of Article 18 of this Agreement:

- Aid measures in the form of lowest permitted domestic first hand sales prices for fish and the purchase of surpluses that are applied in order to offset serious market disturbances;
- regional aid measures to the extent that they are necessary for maintaining fishing activities in regions that are to an above-average degree dependant on such activities and where income from fishing is clearly below the national average in the fishing sector. Such regional measures shall not more than offset cost disadvantages in relation to other locations for fisheries. States Parties to this Agreement introducing or maintaining such measures shall, in accordance with the provisions of Annex VI, provide sufficient information on the regional situation leading to the introduction or maintenance of such measures.

4. The following aid measures are considered not to be in accordance with this Agreement:
