

DECISION OF THE EEA JOINT COMMITTEE
No 175/2025

of 11 July 2025

amending Annex IV (Energy) to the EEA Agreement

THE EEA JOINT COMMITTEE,

Having regard to the Agreement on the European Economic Area (“the EEA Agreement”), and in particular Article 98 thereof,

Whereas:

- (1) Directive (EU) 2018/844 of the European Parliament and of the Council of 30 May 2018 amending Directive 2010/31/EU on the energy performance of buildings and Directive 2012/27/EU on energy efficiency¹ is to be incorporated into the EEA Agreement.
- (2) The EFTA States are not included in the Union’s 2030 headline target for energy efficiency in accordance with Directive 2012/27/EU of the European Parliament and of the Council of 25 October 2012 on energy efficiency, amending Directives 2009/125/EC and 2010/30/EU and repealing Directives 2004/8/EC and 2006/32/EC² as amended by Directive (EU) 2018/2002 of the European Parliament and of the Council of 11 December 2018 amending Directive 2012/27/EU on energy efficiency³. Consequently, the EFTA States shall not specify how they contribute to achieving the Union’s energy efficiency target in their respective long-term strategies in Article 2a(2) of Directive 2010/31/EU of the European Parliament and of the Council of 19 May 2010 on the energy performance of buildings (recast)⁴ as amended by Directive (EU) 2018/844.
- (3) Due to the specificities of Iceland’s relatively recent and uniform building stock, a temporary and conditional exemption from applying Directive 2010/31/EU on the energy performance of buildings is agreed. That exemption should apply to Directive 2010/31/EU as amended by Directive (EU) 2018/844. The exemption should be strictly limited in time and should apply only until Directive (EU) 2024/1275 of the European Parliament and of the Council of 24 April 2024 on the Energy Performance in Buildings (recast)⁵ has been incorporated into the EEA Agreement.
- (4) Annex IV to the EEA Agreement should therefore be amended accordingly,

HAS ADOPTED THIS DECISION:

Declaration by the Government of Iceland

to Decision No 175/2025 incorporating Directive (EU) 2018/844 of the European Parliament and of the Council into the Agreement

Iceland expresses its commitment to work towards assessing the incorporation of Directive (EU) 2024/1275 of the European Parliament and of the Council of 24 April 2024 on the energy performance of buildings (recast) into the EEA Agreement.

Iceland has not implemented any previous versions of the EU energy performance in buildings acquis. Iceland's unique characteristics, such as a relatively recent and uniform building stock, extensive use of renewable heating, and climatic conditions that differ substantially from many EU Member States call for a thorough assessment of the impact of incorporating the Directive and any adaptations necessary for its implementation in Iceland. Furthermore, any implementation of the Directive will require the development of a completely new legislative framework in Iceland.
