STANDING COMMITTEE  
OF THE EFTA STATES

Ref. 1051672  
8 June 2007

**EEA JOINT COMMITTEE DECISIONS ADOPTED IN 2005**

This list provides the following information: first, it gives the date by which the legislation referred to must be complied with in the EU; second, it gives the exact publication reference in the Official Journal and in the EEA Supplement. The date on which an EFTA EEA State is obliged to implement the act in question depends on several factors, i.a. on the date of adoption of the Joint Committee decision and on the possible need for parliamentary approval and on the existence of transitional periods or derogations.

**Terminology used in this list**

The **stated date of entry into force** as provided for in each decision applies where there are no constitutional requirements to be fulfilled by any contracting party before a decision can enter into force, or where the fulfilment of such requirements is notified before the mentioned date. Where one of the Contracting Parties needs to fulfil constitutional requirements and notification is received after the stated date of entry into force, the **confirmed** date of entry into force will be the first day of the second month following the last notification (see Article 103 of the EEA Agreement). In such cases a formal notification is sent out by the Secretary to the Joint Committee once the last notification has been received, indicating the actual entry into force date of the decision concerned. This list is also updated accordingly and uses the terminology "confirmed entry into force date" following notification under Article 103.
