

APPENDIX 1 TO ANNEX I

REFERRED TO IN ARTICLE 2.10 (TECHNICAL AMENDMENTS)

PRODUCT-SPECIFIC RULES

Interpretative Notes

1. The Product-Specific Rules (PSR) of origin set out in this Appendix are based on HS 2022. The first column of the list contains chapters, headings or subheadings and the second column sets out a description of the products. For each entry in the first two columns, one or two rules are specified in columns 3 and 4. If the HS code in column 1 is preceded by an ‘ex’, this signifies that the rules in columns 3 or 4 apply only to the part of that chapter or heading as described in column 2. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, either one may be applied. If no rule is given in column 4, the rule set out in column 3 shall be applied.
2. For the purposes of the PSR set out in this Appendix:
 - (a) “VNM%” means the maximum percentage of the value of non-originating materials allowed in relation to the ex-works price of the goods. For example, “VNM 60%” indicates that the VNM does not exceed 60 percent of the ex-works price of the good;
 - (b) “CC” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the two-digit level (i.e., a change in chapter) of the Harmonized System;
 - (c) “CTH” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four-digit level (i.e., a change in heading) of the Harmonized System;
 - (d) “CTSH” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the six-digit level (i.e., a change in subheading) of the Harmonized System;
 - (e) “MAH” means that materials of any heading, even materials of the same description and heading as the product, may be used, subject, however, to any specific limitations which may also be contained in the rule; and
 - (f) “WO” means that the good must be wholly obtained or produced in accordance with Article 3 of the Annex I (Rules of Origin and Administrative Cooperation).
3. Pursuant to Article 2 (b) (General Requirements), the PSR may be fulfilled by operations in different factories, provided the working or processing takes place within the

territory of a Party and fulfils the requirements of Annex I (Rules of Origin and Administrative Cooperation)

4. A product-specific rule set out in this Appendix represents the minimum amount of working or processing required to be carried out on non-originating materials for the resulting product to achieve originating status. A greater amount of working or processing than that required by the rule for that product shall also confer originating status.

5. If a product-specific rule in the list specifies that a product may be manufactured from more than one material, any one or more materials may be used. It does not require that all be used.

6. If a product-specific rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials in addition.

7. If a product-specific rule provides for a rule where certain materials must be wholly obtained, the tolerance of Article 5 (De Minimis) of Annex I (Rules of Origin and Administrative Cooperation) shall apply.

8. If a product-specific rule excludes materials classified in certain chapters, headings, or subheadings of the Harmonized System, those materials must be originating for the products to qualify as originating.

9. If a product, which has acquired originating status by fulfilling the conditions set out in the list, is used as material in the manufacture of another product, the conditions applicable to the final product do not apply to the material. No account shall be taken of the non-originating components of that material.

10. The products mentioned in the list are not all covered by the Agreement. Other parts of the Agreement, e.g. tariff commitments on agricultural and non-agricultural products, must be consulted in order to come to the conclusion whether preferential access may be granted to a given product imported from a Party to another.
